

## STATE OF ALABAMA

ALABAMA PUBLIC SERVICE COMMISSION  
P.O. BOX 991  
MONTGOMERY, ALABAMA 36101-0991

WALTER L. THOMAS, JR.

SECRETARY

JIM SULLIVAN, PRESIDENT

JAN COOK, ASSOCIATE COMMISSIONER

GEORGE C. WALLACE, JR. ASSOCIATE COMMISSIONER

IN RE: TELEPHONE RULES

DOCKET 15957

### REPORT AND ORDER

BY THE COMMISSION:

By Order entered in this proceeding on December 10, 1992, we adopted rules governing the provision of telecommunications services within the State of Alabama. Subsequently there have been numerous amendments to the Telephone Rules. It now appears that a republication of the Telephone Rules, incorporating all of these amendments, would alleviate confusion concerning which rules are currently in effect.

IT IS, THEREFORE, ORDERED BY THE COMMISSION, That the consolidation of the Telephone Rules attached to this Order is hereby adopted as the Telephone Rules of this Commission.

IT IS FURTHER ORDERED BY THE COMMISSION, That the Telephone Rules attached hereto shall supersede any and all Telephone Rules previously adopted.

IT IS FURTHER ORDERED BY THE COMMISSION, That every person, firm, partnership, corporation or cooperative organization engaged in the business of furnishing telecommunications service to the public, under the jurisdiction of this Commission, shall comply and conform with the provisions and requirements of the Telephone Rules as adopted herein.

IT IS FURTHER ORDERED, That this Order shall be effective as of the date hereof.

DONE at Montgomery, Alabama, this 18th day of November, 1998.

ALABAMA PUBLIC SERVICE COMMISSION

Voted yes

Jim Sullivan, President

Voted yes

## RULE T-1

### Application Of Rules

The telephone service rules promulgated herein shall apply to all telephone utilities, including local exchange companies, resellers (local and toll), interexchange carriers, customer-owned, coin-operated telephone service providers, and all providers of telecommunications service operating within the State of Alabama under the jurisdiction of the Alabama Public Service Commission.

- (A) These rules govern the furnishing of communication services and facilities to the public by utilities subject to the jurisdiction of the Commission. The purpose of these rules is to establish reasonable service standards to the end that adequate and satisfactory service will be rendered to the public.
- (B) If unreasonable hardship to a utility or to a customer results from the application of any rule herein prescribed, application may be made to the Commission for the modification of the rule or for temporary or permanent exemption from its requirements.
- (C) The adoption of these rules by the Commission shall in no way preclude altering or amending them.
- (D) These rules shall in no way relieve any utility from any of its duties under the laws of this State or from any other rules or directives of this Commission.

#### NOTE:

- (1) Rules on deposits, billings, and other provisions are found in the general rules.
- (2) Minimum filing requirements have been adopted for general rate increases by smaller telephone companies, but are

not reproduced herein.

- (E) Tariffs shall be filed in accordance with these rules and shall adopt the provisions herein.

## RULE T-2

### Definitions

In the interpretation of these rules, the following definitions shall be used:

- (A) Access Lines - A circuit directly connecting a central office line with the customer's termination point, including all dial tone lines, basic telephone connections, key system trunks, private branch exchange trunks, pay stations and special circuits. Each customer on a multi-party line is an access line. (see Loop, Infra)
- (B) Aid to Construction - A separate nonrecurring charge made for the construction of facilities in excess of that contemplated under the rates approved in the exchange tariffs.
- (C) Average Busy Season/Busy Hour Traffic - The average traffic volume for the busy season, busy hours.
- (D) Base Rate Area - The developed sections which are a part of or contiguous to the community in which the exchange is located as set forth in the telephone utility's tariffs and within which specified area local exchange service is furnished at uniform rates without mileage or zone rate charges.
- (E) Busy Hour - The two consecutive half hours each day during which the greatest volume of traffic is handled in the central office.

- (F) Busy Season - That period of the year during which the greatest volume of traffic is handled in the central office.
- (G) Calls - Customer's telephone messages attempted.
- (H) Captive Locations - Hotels, motels, hospitals, airports, colleges, universities, pay telephones, and other locations where the premises owner pre-subscribes to a toll service providing operators under an agreement providing for commissions to the subscriber; provided, however, that inmate telephones in prisons and jails are not included.
- (I) Central Office - A switching unit, in a telecommunications system which provides service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in a building (see Dial Switching Equipment).
- (J) Channel - A path for communication between two or more stations or telephone central offices, furnished in such a manner as the facility may be provided, either by carrier, radio or a combination thereof, or by a single physical facility or route (see Circuit).
- (K) Circuit - A channel used for the transmission of energy in the furnishing of telephone and other communications service (see Channel).
- (L) Class of Service - A description of telecommunications service furnished a customer which denotes such characteristics as nature of use (business or residence) or type of rate (flat rate, measured rate, or message rate). Classes of service are usually sub-divided in "grades," such as individual line, two-party, or four-party.

- (M) Commission - Alabama Public Service Commission.
- (N) Community of Interest Factor (CIF) - The average number of toll calls made during a specified period of time. A CIF is arrived at by dividing the total long distance (toll) calls made during a study period by the total number of customers (access lines) of the originating telephone exchanges involved in the study.
- (O) Customer - Any person, firm, partnership, corporation, municipality, cooperative, organization, governmental agency, etc., subscribing for telecommunication services from a utility subject to the jurisdiction of the Commission.
- (P) Customer Provided Equipment (CPE) - Those facilities and equipment provided and maintained by the customer and connected to telephone company facilities, pursuant to the tariffs of the telephone utility.
- (Q) Customer Trouble Report - An oral or written report from a customer pertaining to the access line(s) or related equipment; provided, that any trouble report that is eventually found to be caused by customer provided equipment will be excluded from the count of "customer trouble reports" as herein defined.
- (R) Cut-Over - The conversion process in which subscribers are transferred to a new telephone service or system.
- (S) Dial Switching Equipment - Switching equipment used in a central office or in connection with a private branch exchange system.
- (T) Direct Current Supply - Electrical energy for talking and signaling purposes other than ringing.
- (U) Exchange - The entire telephone plant and facilities used in furnishing local telephone service to customers located in an exchange service area. An exchange may include more than one

central office unit.

- (V) Exchange Service Area - The territory served by an exchange within which local telephone service is furnished at the exchange rates applicable within that area.
- (W) Extended Area Service (EAS) - A type of telephone switching and trunking arrangement which provides for unlimited calling between two or more telephone exchanges based on a usage-sensitive structure and/or a flat rate additive, if applicable.
- (X) Flat Rate Service - Local exchange service where the basic access line charge allows unlimited local calls.
- (Y) Grade of Service - The number of parties (main stations) served on a telephone line such as one-party, two-party, four-party, etc. (see Class of Service)
- (Z) Intercept Service - A service arrangement provided by the utility whereby calls placed to a disconnected or discontinued telephone number are intercepted and the calling party is informed that the called telephone number has been disconnected, discontinued, changed to another number, or that calls are being received by another telephone.
- (AA) Local Access and Transport Area (LATA) - Geographic area established for the purpose of defining the territory within which a Bell Operating Company and General Telephone Company may offer its telecommunications services.
- (BB) Loop - A general term used in the communications industry in several different senses, the most important of which are:
  - (1) The conductor or conductors extending between customer stations and central offices, or between central offices whether they are in the same or different communities. (see Channel, Circuit)

- (2) The conductors and circuit apparatus associated with a particular communication channel.
- (3) Any communications channel between two points, disregarding the method of its derivation.
- (CC) Map - The term map as used herein means a map associated with a tariff which is used to define utility and exchange boundaries.
- (DD) Measured Rate Service - Telephone service for which charges are made in accordance with the use made of the line with the elements of time of day, distance, and duration.
- (EE) Message - A completed telephone call regardless of length of call or time and distance involved.
- (FF) Message Rate Service - Local exchange service billed on a per-message basis.
- (GG) Message Toll Service or Message Telecommunication Service (MTS) - Long distance telecommunications service between exchange areas, excluding EAS, categorized as intraLATA/intrastate, interLATA/intrastate, or interstate and rated on a time and distance basis.
- (HH) Network Control Signaling - The transmission of a signal, used in the telecommunications system which perform functions such as supervision (control, status, and charging signals), address signaling (calling and called number identification), audible tone signals (call progress signals indicating recorder or busy conditions, alerting coin denominations, coin collect, and coin return tones) to control the operations of switching machines in the telecommunications system.
- (II) Outside Plant - The telecommunications equipment and

facilities installed on, along, over or under streets, alleys, highways or on private right-of-ways between the central office and customer's locations or between central offices.

- (JJ) Provider - A carrier that provides, directly or indirectly, operator service at captive locations.
- (KK) Quiet Termination - A termination which when reached effectively isolates the line from the dial switching equipment noise.
- (LL) Regrade - A change in the classification and/or grade of service, or an application for such change.
- (MM) Repeated Repair Report - Customer reports on the same access line or related equipment concurring within one month of the original report.
- (NN) Selective Ringing - A party line ringing system whereby only the bell of the desired party is rung.
- (OO) Station - A telephone instrument or other terminal device.
- (PP) Store and Forward - A call process technique used with smart telephone sets or telephone set controller equipment. The equipment cues the caller to enter or provide the information needed for an operator assisted call, stores this information, and then sends a direct dialed call through a telephone network.
- (QQ) Study Period - A representative period of one month used to determine the community of interest factor.
- (RR) Subscriber - A customer of the telephone utility who is responsible for the telephone service, the person in whose name the telephone is listed, and to whom the charge for service is billed.
- (SS) Tariff - The entire body of rates, charges, regulations, and

rules adopted by the utility and approved by the Commission.

- (TT) Telephone Utility - Any person, firm, partnership, corporation or cooperative organization engaged in the business of furnishing telecommunications service to the public under the jurisdiction of the Alabama Public Service Commission.
- (UU) Toll Call - A call to a point outside the local calling area of an exchange for which a long distance charge applies.
- (VV) Toll Network Trunks - A general classification of trunks carrying toll traffic and ordinarily extending between a local office and toll office.
- (WW) Traffic - (1) The messages sent and received over a communications channel. (2) A quantitative measure of the total messages and their length, expressed in hundred call seconds (CCS) or other units.
- (XX) Trunk Equipment - The equipment necessary to provide a communications channel between central office units.
- (YY) 1,000 HZ Generator - The standard device for the generation of a 1,000 HZ frequency applied at a level which will send one milli-watt of power into a 900 ohm impedance.

### RULE T-3

#### Records And Reports

- (A) Location of Records

All records of every telephone utility's operations will be kept within the State or shall be made available to the

Commission or its authorized representatives at any time upon request.

(B) Retention of Records

All records required by these rules shall be preserved for the period of time specified in the current edition of the Federal Communications Commission's records retention schedule, unless otherwise specified by the Commission.

(C) Reports

(1) Each telephone utility shall maintain records of its operations in sufficient detail to permit review of its service performance upon request by the Commission, and shall file Annual Reports containing financial information as directed by this Commission.

(2) Each telephone utility shall report promptly to the Commission any specific occurrence or development which disrupts the service of a substantial number of its customers or which may impair the utility's ability to furnish service to a substantial number of customers within a 48-hour period.

(D) Exchange Maps

Each telephone utility shall have on file with the Commission an exchange area boundary map for each of its exchanges within the State. Each map shall clearly show the boundary lines of the area which the telephone utility is authorized to serve. The exchange map shall be immediately available for public information at each business office for the area served by said office. Each telephone utility filing an original or revised map shall submit proof of notice of the proposed boundary to any other telephone utility adjoining the area in which a boundary line is to be established or changed. Such proof of notice shall also contain documentation clearly reflecting the concurrence of the affected telephone

utilities.

## RULE T-4

### Metering, Inspections And Tests

#### (A) Meter and Recording Equipment Requirements

Every telephone meter and recording device shall be tested prior to its installation, either by the manufacturer, the telephone utility, or an approved organization equipped for such testing. Such equipment shall be maintained in good operating condition, shall be tested periodically in their normal operating location and wiring and shall be accurately read. Periodic testing and maintenance of controlling trunk equipment shall be performed to assure the integrity of their operation.

#### (B) Provisions for Testing Circuit and Switching Equipment

The telephone utility shall provide or have access to test facilities which will enable it to determine the operating and transmission capabilities of circuit and switching equipment either for routine maintenance or for fault location.

#### (C) Meter Reading Records

When mechanical and/or electronic recording devices are used in connection with telecommunication service, the meter reading data and related customer records from which the customer's bills are prepared shall show:

- (1) Identifying number or means to determine readily the customer's name, address, and classification.
- (2) Meter readings.

- (3) Date of meter reading.
- (4) Multiplier or constant if used.

(D) Meter and Recording Equipment Requirements

All meters and/or recording devices shall accurately perform the following:

- (1) For message rate service where timing the length of message is not involved, the meter and/or recording device shall show the number of completed messages sent by the access line which it is measuring.
- (2) For message rate, measured rate, and/or message toll service when in addition to recording the calls it is necessary to time the calls, the recording device shall show the number of calls and the chargeable time involved in each call and the access line making such call. Where a meter is associated with the access line making the call, the meter shall accumulate the number of message units used for these calls.

## RULE T-5

### Customer Relations

(A) Rate and Special Charges Information

- (1) The telephone utility shall provide to any customer or applicant an explanation of the rates, charges and

provisions applicable to the service furnished or available to each customer or applicant. The utility shall notify customers of any service connection charge(s) to be applied to their bills prior to undertaking any action and shall provide an estimate of the initial billing for basic monthly service plus any other applicable charges. When an order for a new service is taken by a utility representative, the representative shall describe to the applicant the basic rate for the service requested and available options and the applicable rates.

- (2) The customer shall be provided with an estimate of the charges where special charges not specifically set forth in a utility's tariff are levied on the basis of actual cost for such items as extraordinary construction, maintenance or replacement costs or expenses, overtime work at the customer's request and special installation, equipment, and assemblies.

(B) Business Office

During normal business hours, business offices shall be staffed, directly or indirectly, with qualified personnel to provide information to customers relating to service and rates, accept and process bills, adjust charges made in error and to generally act as representatives of the utility. If one business office serves several communities, toll-free calling from such communities to that office shall be provided.

(C) Customer Billing

- (1) (a) Bills to customers shall be typed or machine printed unless arrangement is made by the customer to be billed via electronic media such as a computer tape or computer diskette. Bills to customers shall contain a listing of all charges and the period of time covered by the bill.

The local service charges may be shown as a single item even though they include extensions and other items for which a flat monthly charge is made. The telephone utility shall provide the customer an itemized bill of all local service charges for the following situations:

- (i) Initiation of new local exchange service by a customer.
- (ii) Any change in service items on a customer's bill.
- (iii) Any change in rates of any service item on the customer's bill.
- (iv) Once annually upon request, at no charge.
- (v) Any time upon request by customer at tariffed charge.

Statements itemizing message toll charges, if applicable, shall be included in bills to customers. Each bill with toll charges shall include a number for toll charge inquiries.

- (b) Each local exchange carrier shall have a billing procedure to bill customers for toll calls and information services no later than 90 days after the call was placed.
- (2) In the event of a dispute between the customer and the utility respecting any bill, the utility may require the customer to pay the undisputed portion of the bill to avoid discontinuance of service for nonpayment. The utility shall make such investigation as may be appropriate to the particular case and report the result thereof to the customer. In the event the dispute is not

reconciled, either party may make application to the Commission for review and disposition of the matter.

- (3) In the event service is interrupted due to malfunction of telephone company equipment and not by the negligence or willful act of the customer and it remains out of order for more than 48 consecutive hours after being reported or found to be out of order and access is made available for repairs, appropriate pro rata adjustments shall be made to the customer upon request.

- (4) (a) Each local exchange carrier shall issue bills monthly, and each bill shall show:

- (i) The billing date, which shall be the first day of the billing cycle unless the carrier bills for local service in arrears.
- (ii) The due date, which shall be the date the payment is due in to the carrier.
- (iii) The delinquent date, which shall be, for companies billing in advance, at least 20 days after the billing date, or, for companies billing in arrears, at least 10 days after the billing date and after the due date.
- (iv) The delinquent charge, which will be the charges applied pursuant to the carrier's tariff if the bill is not paid before the delinquent date.
- (v) All charges due and payable.
- (vi) The local or toll free telephone number(s) for resolution of all billing inquiries.

(b) Each local exchange carrier shall show on a bill at least once annually the following statement:

"Itemization of local billing available once annually upon request."

(c) Bills issued by other telecommunications providers shall include a due date of not less than 15 days from the date of billing.

(5) Any undercharge in customer billing as a result of the utility's error shall not be backbilled in excess of thirty-six (36) months. No backbilling shall be allowed without immediate written notification by the utility to the customer at the time of discovery by the utility including notice that the customer shall be given the option of repayment of amounts due in monthly installments equal to the period of said underbilling.

(6) Where any overcharge in billing of a customer is the result of the utility's error, such customer shall be due a refund of such excess billing for up to thirty-six (36) months from the date an objection is filed by the customer.

(7) The utility may not effect a regrade of service which has not been requested by the subscriber without giving the subscriber 30 days' prior written notice citing reasons therefor and the applicable recurring charges for proposed class of service.

(a) Business rates shall not apply whenever the use of the service is not primarily or substantially of a business nature.

(8) Provision for Certain Local Taxes and Fees:

In the event a municipality imposes, collects, or

receives from the telephone utility any license, occupational, franchise, privilege, inspection or other similar tax or fee, or otherwise, whether in a lump sum, or at a flat rate, or based on receipts, or based on poles, wires, conduits or other facilities, or otherwise, so much of the aggregate amount of such tax or fee will be billed, insofar as practical, pro rata to the customers receiving exchange service within such municipality, and will be itemized on the customer's bill.

- (9) Deposits - Refer to General Rule 8 governing all utilities for requirements related to deposits.

(D) Public Information

Access to the following information shall be made available at all business offices upon request:

- (1) Copies of all tariffs as described in Rule T-12 of these rules applicable to the area served by the business office.
- (2) Maps detail from which showing exchange boundaries in sufficient size and all customer locations can be determined.
- (3) Publicly announced information as to the present and intended future availability of specific classes of service at an applicant's location.
- (4) A copy of these Telephone Rules shall be available for inspection by applicants or customers.
- (5) Utilities shall not be required to furnish copies without charge.

- (E) All telephone utilities including local exchange carriers, interexchange carriers, resellers and operator service providers, shall provide access to the Alabama Dual Party Relay Center for all customers.

## RULE T-6

### Reasons For Denying Telephone Service

Service may be refused or discontinued for the reasons listed below, in addition to any reasons stated in the General Rules. Unless otherwise stated, the customer shall be notified and allowed a reasonable time in which to comply before service is discontinued.

- (A) Without notice in the event of customer use of equipment in such a manner as to adversely affect the utility's equipment or the utility's service to others or use of customer-provided equipment which is incompatible with the utility's equipment.
- (B) In extraordinary circumstances where unlimited access to the network may result in substantial loss of revenue to the utility.

## RULE T-7

### Insufficient Reasons For Denying Telephone Service

The following, in addition to any reasons stated in the General Rules, shall not constitute sufficient cause for denying service.

- (A) Failure to pay for business service at a different location and a different telephone number shall not constitute sufficient cause for refusal of residence service or vice versa.

- (B) Failure to pay directory advertising charges in dispute.
- (C) Failure to pay charges in dispute billed for other carriers or information service providers.
- (D) Failure to pay for non-regulated equipment or services.
- (E) Failure to pay for Local Dial-it charges in dispute.

## RULE T-7.1

### Notice of Termination of Reseller

Each Telephone utility shall notify the Commission one or more business days before an involuntary disconnection of service to a reseller of its service. Such notification may be by telephone at 334-242-5211, by fax at 334-242-0727, or by courier to Suite 850, 100 North Union Street, Montgomery, Alabama, 36104.

## RULE T-8

### Voluntary Suspension

Except as noted herein, communications service shall, at the request of a customer, be temporarily suspended for any period of time up to nine months with a minimum period of one month. Each utility's tariff shall provide a suspension of service rate chargeable during such period.

This rule does not prohibit voluntary suspension for a period exceeding nine months when approved by the Commission. The utility may, with Commission approval, specifically identify certain services as ineligible for voluntary suspension.

## RULE T-9

### Directories

- (A) (1) Telephone directories shall be published annually under normal conditions listing the name, address, and telephone number of all customers, except public telephones and telephone service unlisted at customer's request and customers who may be accessed by subscribers to Area Calling Service plans outside of the normal calling area as addressed under Rule T-20.
- (2) Each telephone utility shall notify subscribers by bill insert or a message on the bills within ninety (90) days prior to a directory closing. The notice shall state that a new directory is being prepared and that request for changes may be made. A charge not to exceed the actual cost or tariff rate of the requested change may be applied.
- (B) Upon issuance, one copy of each directory shall be distributed to all customers served by that directory and two copies of each directory shall be furnished to the Commission.
- (C) The name of the telephone utility, an indication of the area included in the directory, and the month and year of issue shall appear on the front cover. Information pertaining to emergency calls such as for the police and fire departments shall appear conspicuously in the front part of the directory pages.

The Commission's toll-free number shall appear on the inside of the front cover or on Page 1 of the directory pages of each telephone company. This number and "Alabama Public Service Commission" shall be displayed in bold font type no smaller than 14 point and the information contained therewith shall be

uniformly formatted with the following language and placed in a box so as not to become confused with other listings:

Alabama Public Service Commission  
Utility or Transportation Complaints

If you have a utility or transportation (common carrier) complaint, please attempt first to resolve same by direct contact with that utility or transportation company. If you are unable to achieve results from that direct contact, you may then call the Alabama Public Service Commission by dialing toll free, 1-800-392-8050. Please note, your Public Service Commission does not regulate the following utilities and, therefore, does not have the power to resolve complaints concerning them: electric cooperatives, most water companies, municipal utilities, cable TV systems, Tennessee Valley Authority.

- (D) The directory shall contain instructions concerning placing local and long distance calls, calls for repair and directory assistance services, and locations and telephone numbers of telephone utility business offices as may be appropriate to the area served by the directory.
- (E) The directory shall contain the following information which will appear conspicuously in the front part of the directory pages:

In the event service is interrupted due to malfunction of telephone company equipment and not by the negligence or willful act of the customer and it remains out of order for more than 48 consecutive hours after being reported and access is made available for repairs, appropriate pro rata adjustments shall be made to the customer upon request.

## RULE T-10

### Directory Assistance and Operators

- (A) Directory assistance operators shall have access to records of all telephone numbers (except telephone numbers not listed or published at customer request) in the area for which they are responsible for furnishing directory assistance service.
- (B) Each telephone utility shall make every effort to list its customers with directory assistance as necessary for the directory assistance operators to provide the requested telephone numbers based on customer names and street addresses, except private listings.
- (C) In the event of an error in the listed number of any customer, the telephone utility shall intercept all calls to the listed number for a reasonable period of time provided existing central office equipment will permit and the number is not in service. In the event of an error or omission in the name listing of a customer, such customer's correct name and telephone number shall be in the files of the directory assistance or intercept operators and the correct number furnished the calling party either upon request or interception, at no charge to the requesting party.
- (D) Whenever any customer's telephone number is changed after a directory is published, the utility shall intercept all calls to the former number for a reasonable period of time, and give the calling party the new number provided existing central office equipment will permit, and the customer so desires.
- (E) When additions or changes in plant or changes to any other utility operations necessitate changing telephone numbers to all groups of customers, reasonable notice shall be given to all customers so affected even though the addition or changes may be coincident with a directory issue.

- (F) Suitable practices shall be adopted by each telephone utility concerning the operating methods to be employed by operators with the objective of providing efficient and agreeable service to the customers.
- (G) Telephone operators shall be instructed to be courteous, considerate and efficient in the handling of all calls.
- (H) All operator-handled calls shall be carefully supervised and disconnects made promptly.
- (I) When an operator is notified by a customer that a wrong number has been reached on a direct dialed call, the customer shall be given credit on his/her bill when the claim has been substantiated.

## RULE T-11

### Privacy of Telephone Communications

- (A) Each telephone utility subject to the jurisdiction of the Commission shall maintain a central file available for Commission inspection of all instructions to employees, regulations, rules and forms designed to insure the privacy (and/or maintain the secrecy) of communications over the lines of such utility together with a record of the steps taken to ensure the privacy and/or secrecy of communications.
- (B) Each telephone utility shall file with the Commission, at the time of their Form M, or other annual report filing each year, one copy of a statement showing any changes in the steps being taken to insure privacy (and/or secrecy) of communications together with one copy of any new or revised instructions, regulations, rules and/or forms being used.
- (C) Each telephone utility which does not have instances during

the year of changes shall file with the Commission at the time of their Form M, or other annual report filing each year, one copy of a statement indicating it has no changes during the year.

(D) Monitoring or recording of telephone conversations shall not be conducted except pursuant to this rule.

(1) Monitoring means the use of monitoring equipment to allow a third person to overhear the telephone conversation of two or more persons. Monitoring does not include:

(a) Unlawful wiretapping or eavesdropping;

(b) Monitoring by law enforcement or national defense agencies, or by telephone utilities to prevent fraud or loss of revenues, when these activities are permitted under enabling laws and legal safeguards;

(c) Accidental or unintentional interception of telephone conversations by telephone utility personnel engaged in normal operation, maintenance, or construction;

(d) Administrative service observing performed by telephone utilities for the purpose of training and quality control when performed in accordance with existing federal, state or local laws.

(2) Recording means the recording of any telephone conversation by any means.

(3) Monitoring equipment means any method or apparatus by which a telephone company, or any of their officers, employees or agents, or a telephone subscriber, may

listen to or record telephone conversations on premises owned or controlled by the utility or by the subscriber:

- (a) Without any audible indication to the parties conversing that their conversation is being overheard, or
  - (b) Without connection of a device to provide two-way conversation between the listener and the parties conversing so that the listener's voice may be heard throughout any period of monitoring, or
  - (c) Without any indication to the parties conversing that their conversation is being recorded.
- (4) No portion of the public utility telephone network in Alabama to which the public, or any portion of the public, has access shall be used for monitoring or recording of telephone conversation except when:
- (a) All the parties to the conversation give their express prior consent to the monitoring or recording, or
  - (b) When notice that such monitoring or recording is taking place is given to the parties to the conversation by one of the methods required in this Rule.
- (5) Notice of monitoring or recording shall be given either:
- (a) By a tone warning device which automatically produces a distinct signal audible to all parties to a telephone conversation. The signal shall have those characteristics specified by the Federal Communications Commission, or by this Rule.
  - (b) By verbal announcement by the operator of monitoring equipment to the parties to a

communication that their communication is being monitored; or

- (c) By clearly marking each instrument from which communications may be recorded without notice.

## RULE T-12

### Filing Of Telephone Tariffs

#### (A) Tariffs

- (1) Each telephone utility shall have its tariff on file with the Commission and said tariff shall (a) be in accordance with the rules and regulations governing the filing of tariffs as prescribed by the Commission, and (b) state the rates, charges, classifications, and subscriber rules and regulations which govern provision of telecommunications service.
- (2) Any public utility engaged in furnishing telephone service which determines to furnish service to its employees, pensioners, officers, or other persons or organizations at no charge or at charges less than those prescribed in its published schedules or tariffs, shall file tariffs with the Commission as hereinafter prescribed stating the conditions and circumstances under which such services will be furnished.
- (3) The telephone utility shall file tariffs in the standardized format approved by this Commission. A company who prefers a company-specific format shall petition the Commission for approval of any format other than the standardized version.
- (4) A telephone utility shall not charge, demand, collect or receive a greater or lesser or different compensation for regulated telecommunications service than the rates,

fares and charges specified in the tariffs in effect at the time, except where a special service contract has been filed and approved by order of the Commission, and except where otherwise authorized by a vote of the Commission.

(B) Requirements As to Size, Form, identification and Filing of Tariffs

- (1) All tariffs shall be in loose-leaf form of size eight and one-half inches by eleven inches and shall be of letter-quality print on paper of good quality.
- (2) Each Local Exchange Carrier in Alabama shall have on file with the Alabama Public Service Commission, current Alabama General Highway County maps of scale one-half (1/2) inch or one (1) inch equals one mile, showing utility, and exchange boundary lines.
  - (a) Where possible, utility boundary lines adjoining another local exchange carrier shall be located by appropriate measurement to an identifiable location where that portion of the boundary line is not otherwise located on section lines, waterways, railroads, etc.
- (3) A margin of not less than three-fourths inch without any printing thereon shall be allowed at the binding edge of each tariff sheet.
- (4) Tariff sheets are to be numbered consecutively by section, sheet and revision number. Each sheet shall show an issue date and requested effective date, a revision number, section number, sheet number, name of the Utility and the name of the tariff and title of the section in a consistent manner.
- (5) When it is desired to make changes in the rates, rules, maps, or other provisions of the tariff, an official

tariff filing consisting of an original and ten (10) copies shall be made to the Commission addressed as follows:

Secretary  
Alabama Public Service Commission  
P. O. Box 304260  
Montgomery, Alabama 36130

(C) Transmittal Letters

Each tariff filing shall include a letter of transmittal accompanied by ten (10) copies. All explanations shall be made in such form as to be readily understood by persons not fully familiar with technical language. Each transmittal letter shall include:

- (1) A list of sheets filed by section, sheet and revision.
- (2) A narrative describing the type of filing (new service, change of regulation, rate increase, rate reduction, etc.)
- (3) A full explanation of each change, new offering, new regulation, etc., and details of operations of each new service.
- (4) A full explanation of the impact of each proposed change on existing subscribers.
- (5) A revenue impact statement giving the estimated revenue that a new service will produce over a one (1) year period, explaining how the estimate was obtained.
- (6) Each tariff filing shall be treated as an original in that all required information shall be submitted with each filing regardless if similar or identical

information such as cost study data or technical data has been submitted with previous filings.

- (7) Unrelated new service offerings shall not be included in the same tariff filing. Neither shall unrelated tariff changes be included in the same tariff filing.
- (8) Technical explanations, marketing data or other information necessary to describe the proposed additions or changes shall be included as a part of the tariff filing.

(D) Cost Study Data

- (1) Appropriate cost data shall be submitted as may be required by the Commission staff for each new or changed rate by any telephone utility. If full cost data is requested by the Commission staff, but is not available, explanation should be given including the available data, the reason full data is not available, and on what information the proposed rates are based. Supporting data and/or explanation of how dollar amounts appearing on cost studies were obtained shall be included.
- (2) Cost data developing recurring and non-recurring charges such as connecting and reconnecting service will be included. Each tariff item will be listed by description and payment plan. The following specific cost data will be furnished as a minimum: (a) investment: material, labor, and engineering expenditures; (b) annual operating cost: maintenance and shop repair, administrative expenses, ad valorem taxes, and other costs; (c) capital cost: depreciation, cost of money, income tax, and other costs; and (d) non-recurring costs based on a monthly equivalent.
- (3) Requested rate increases may be filed in accordance with the Minimum Filing Requirements adopted by the Commission.

- (4) Any cost data obtained by the Commission shall be treated as proprietary. Copies may be obtained by other parties only from the company preparing the data, and the data shall be supplied by that company upon entry of a mutually acceptable proprietary agreement.

(E) Notice of Change; Special Permission; Symbols

- (1) Each tariff filing shall include new or revised tariff sheets (10 copies) with notifications in the right-hand margin indicating each change made on these sheets. Notations to be used are:

- (C) to signify change in regulation;
- (D) to signify a deletion;
- (I) to signify a rate increase;
- (L) to signify material relocated in the tariff;
- (N) to signify a new rate or regulation;
- (R) to signify a rate reduction;
- (T) to signify a change in text, but no change in rate or regulation.

Sheets issued under new numbers are to be designated as original sheets. Sheets being revised should show the next number of revision from the existing sheet.

- (2) Any tariff filings to make changes of existing maps shall include location maps so marked with the proposed changes indicated in red pencil in lieu of the right-hand margin notation specified in the preceding paragraph.
- (3) All tariff filings shall be received at the Commission offices at least thirty (30) days before the date upon which they are to become effective, except those tariff filings made in response or pursuant to a Commission order.

(F) Commission-Ordered Tariff Filings

Tariff filings made in response to an order issued by the Commission shall include a transmittal letter stating that the tariffs attached are in compliance with the order, giving the docket number, date of the order, a list of tariff sheets filed and any other information necessary. The transmittal letter shall be exempt from all other requirements of T-12(C). The tariff sheets shall comply with T-12(B) and shall include all changes ordered and absolutely no others. The effective date and/or wording of said tariffs shall comply with the ordering provisions.

(G) Compliance

Any tariff filed with the Commission and found to be noncompliant with T - 12 shall be so marked and one copy shall be returned to the filing utility with a brief explanation advising in what way the tariff does not comply and advise that the Commission does not consider said filing in compliance with T-12. Full compliance with this rule shall not guarantee Commission approval or preclude requests for additional information or clarification.

## RULE T-13

### Transfers and Acquisitions

- (A) (1) The telephone utility shall notify the Commission prior to the sale or transfer of any telephone system, in whole or in part of such system.
- (2) This rules does not apply to the sale or transfer of any equipment or material not in actual service, nor to the purchase or sale by a telephone utility of service lines

or equipment connected to its system.

(B) All telephone utilities, including local exchange carriers, interexchange carriers resellers operator service providers, COCOTs, etc., shall file a written report with the Secretary of the Commission within 30 days after control of the telephone utility changes or within 30 days after the telephone utility acquires another company regulated by the Commission. The report shall include:

- (1) A brief description of the transaction, including the effective date.
- (2) Location of the financial records of the telephone utility, if control changed, or of the acquired company, if an acquisition occurred.
- (3) The name and telephone number of a contact person familiar with the transaction.
- (4) A brief description of any tariff changes anticipated in the near future.
- (5) The new address to be used for official notices, if the address changed.

## RULE T-14

### Company Investigation Of Customer-Denied Long Distance Telephone Calls

Telephone utilities must investigate all customer-denied long distance telephone calls which are not credited to the customer's account. A record of all customer complaints either oral or in writing in dispute, shall be maintained by the telephone utility. All expenses regarding the investigation shall be the responsibility of the utility, except where complete investigation by the telephone

utility determines that the original bill was correct.

## RULE T-15

### Pay Telephones

#### (A) Public Pay Telephone Service of Local Exchange Carriers

- (1) In each exchange, the telephone utility shall provide at least one public pay telephone available to the public at all hours, prominently located and properly maintained and equipped.
- (2) The telephone utility shall make a reasonable effort to maintain at each company-owned, public pay telephone station a current copy of the telephone directory for that exchange. Each instrument shall have all operating instructions posted thereon including, but not limited to, the access code for long distance dialing, directory assistance, and emergency or "911" numbers.
- (3) Each pay telephone station shall provide coin-free access to the local operator, the toll operator, emergency numbers and 800 numbers.
- (4) Each pay telephone instrument shall be pre-pay.
- (5) A notice must be displayed on each instrument giving the local exchange company's address and telephone number where callers can get help when problems occur with pay telephone service, without charge for such telephone calls.
- (6) The name of the interLATA toll carrier selected by the local exchange carrier must be posted on each telephone instrument in plain view of customers.

- (7) All instruments must be able to accommodate hearing-impaired and handicapped persons as required by federal law and regulations.
- (8) All instruments must be capable of accepting nickels, dimes and quarters. Coins must be returned by the instruments for any incomplete calls.
- (9) Repairs shall be performed within 24 hours of a trouble report on the instrument.
- (10) The instruments must accept incoming calls without a charge, except where:
  - (a) Otherwise requested by a law enforcement agency, and
  - (b) The instrument bears a notice stating that incoming calls are not accepted.
- (11) If a time limitation is placed on a phone, proper notice must be posted and a tone must sound 15 to 30 seconds before disconnection. The exact interval of which shall be clearly stated on the instrument. The minimum time limit for local calls shall be no less than five (5) minutes, provided, however, that no time limit will be allowed on phones where, in the past, the need for no time limit on that phone has been determined by the Commission, or where, in the future, the Director of Telecommunications Division directs, in writing, that the pay phone have no time limit. Removal of the time limit may be requested by the owner of the phone, the owner of the premises, and/or governmental or civic groups.
- (12) The rates for intrastate/interLATA long distance service shall be no higher than the Commission approved rates for the certificated carrier selected. The only exception is the rounding up to the nearest nickel (\$.05).

- (13) All pay telephones are subject to random and periodic inspections to assure compliance with Commission requirements. Noncompliance will be brought to the attention of the local exchange company in writing, and shall be corrected within 30 days.
- (14) All local exchange companies shall provide to the Commission, upon request, a list of pay telephone access lines maintained in the state.

(B) Customer-Owned, Coin-Operated Telephone Service

- (1) All customer-owned instruments must be registered under Part 68 of the FCC regulation Program to be connected to the Exchange Network.
- (2) All instruments must be able to accommodate hearing-impaired and handicapped persons.
- (3) All instruments must be installed in compliance with the National Electrical Safety Code and all accepted telecommunications industry standards relating to pay telephone service.
- (4) The owner of the instruments must be certified by the Commission. Access to the exchange network shall be prohibited unless compliance with the guideline is achieved.
- (5) The charge for a local call shall not exceed the maximum amount authorized by the Commission for a local exchange company coin telephone.
- (6) The owners must display, on each instrument, the address and telephone number where callers can get help when problems occur with pay telephone service, without a charge for such calls.

- (7) Each instrument must have all operating instructions posted thereon.
- (8) Non-chargeable Operator, 911, and 800 number calls must be able to be made without a coin deposit and with no time limitations. Directory assistance calls will be charged at a rate not to exceed the local exchange company charge for such calls from coin operated instruments.
- (9) A reasonable effort must be made to assure that directories are provided at each instrument location.
- (10) All coin instruments must be capable of accepting nickels, dimes, and quarters. Coins must be returned by the instruments for any incomplete calls.
- (11) Repairs shall be performed within 24 hours of a trouble report on the instruments, the responsibility of which will be the owner of the pay telephone.
- (12) All local calls shall be pre-paid.
- (13) The instruments must accept incoming calls without a charge, except where:
  - (a) Otherwise requested by a law enforcement agency,  
and
  - (b) The instrument bears a notice stating that  
incoming calls are not accepted.
- (14) If a time limitation is placed on a phone, proper notice must be posted and a tone must sound 15 to 30 seconds before disconnection. The exact interval of which shall be clearly stated on the instrument. The minimum time limit for local calls shall be no less than five (5) minutes, provided, however, that no time limit will be

allowed on phones where, in the past, the need for no time limit on that phone has been determined by the Commission, or where, in the future, the Director of the Telecommunications Division directs, in writing, that the pay phone have no time limit. Removal of the time limit may be requested by the owner of the phone, the owner of the premises, and/or governmental or civic groups.

- (15) Customer-owned pay telephones shall not be connected to a residential or business access line.
- (16) The resale of toll telephone service is prohibited unless the guidelines for resellers are met. (see Docket 18548)
- (17) All telephones are subject to random and periodic inspections to assure compliance with Commission requirements.
  - (a) Noncompliance will be brought to the attention of the COCOT owner or provider by letter. If violations are not corrected and the Commission notified within thirty (30) days from the date of the Commission staffs letter, the provider's certificate of public convenience and necessity shall be subject to revocation, and access lines to all the instruments shall be disconnected.
- (18) Access to the local exchange operator must be provided by dialing 0 from each instrument. All 0+ and intraLATA calls must be routed to the local exchange company or a carrier authorized to provide intraLATA service.
- (19) Access to the interLATA operator may be provided by 00 or 0+ on intrastate/interLATA calls. 00 cannot be used from any COCOT to reach the local exchange company.
- (20) All COCOT providers shall provide to the Commission a list of all COCOT access lines maintained in the State of

Alabama on a quarterly basis and upon request.

- (21) The rates for intrastate/intraLATA long distance calls shall be no higher than the local exchange company's approved rates. The only exception to this is the rounding up to the nearest nickel (\$.05).
- (22) The rates for intrastate/interLATA long distance service shall be no higher than the Commission approved rates for the certificated carrier of choice. The only exception to this is the rounding up to the nearest nickel (\$.05).
- (23) Toll charges will incorporate time of day, day of week, and recognized holiday discounts as approved by the Commission for intrastate/intraLATA and intrastate/interLATA calls.
- (24) All COCOTs shall adhere to appropriate General Rules, Telephone Rules and orders of the Commission.
- (25) A local exchange company shall not provide intrastate access to any customer-owned, coin-operated telephone company which is not lawfully operating in the State of Alabama for intrastate purposes.
- (26) All customer-owned pay telephones, coin/coinless shall be connected to a one-party line only.
- (27) IntraLATA, 0+ calls shall not be completed with "store and forward" devices.
- (28) IntraLATA, 1+ calls must be sent through the local exchange carrier and shall be carried by an authorized intraLATA toll service provider.

(C) Coinless Inmate Telephone Collect-Only Service

- (1) This type of service is placed in areas where

prisons/jails have internal rules and regulations administered in compliance with the State Department of Corrections, or city or county governmental body, which governs inmate telephone usage and access.

- (2) This service is initiated by the calling party selecting the option of making a station-to-station or person-to-person call.
- (3) All calls from coinless pay telephones located within a prison/jail, which are placed there to provide telephone service for the sole purpose of the inmates, shall be collect to the called party.
- (4) All operator services provided at coinless pay telephones located in prisons must be provided under a certificate issued by the Commission and in compliance with Commission rules.
- (5) On local collect calls that are limited to three minutes the called party must be notified prior to any additional charges being applied over the initial three minutes.
- (6) "Store and Forward" instruments may be used only if they include affirmative response and negative response features that have been approved by the Commission.

## RULE T-16

### Billing And Collection

Telephone companies shall not provide billing and collection for services which have not been authorized by the Commission where the Commission deems such service requires authorization.

## RULE T-17

### Live And Automated Solicitations And Announcements

- (A) The following requirements apply to all automated solicitation telephone calls to consumers in the State of Alabama:
- (1) No numbers will be called in sequential fashion. Sequentially-placed calls refer to those calls automatically dialed by successively increasing or decreasing integers, or similar methods.
  - (2) No solicitation calls are allowed on Sundays or holidays. On the days that calls are allowed, none will be placed prior to 8 a.m. or after 8 p.m.
  - (3) If the consumer's response is to be recorded, they must be informed of such and permission must be granted.
  - (4) All automatic dialing and announcing devices must have 10-second disconnect.
  - (5) Within twenty seconds after the called party answers, the name and telephone number of the individual or firm making or paying for the call must be clearly stated.
  - (6) At the conclusion of the call, the name and telephone number of the individual or firm making or paying for the call must again be clearly stated.
  - (7) Messages must not contain obscene, profane, coercive, or abusive language; solicit the sale of pornographic material; or be used for any unlawful purpose.

- (8) If the solicitation call requires a response by the consumer and a charge will apply, the consumer must be informed if the response call is not a free call. The vendor at this time must give the consumer the amount of the charges that will be applied if they respond.
  - (9) Emergency and unlisted telephone numbers will not be used with recorded solicitation communication.
  - (10) Connection of customer-provided communications systems must meet the telephone companies' requirements, as well as Part 68 of the Federal Communications Commission's Rules and Regulations.
  - (11) The telephone company is under no obligation to provide lists of customer telephone numbers, or any directory information more accurate or current than that contained in normally published and distributed directories for public use.
  - (12) All persons who utilize Automatic Dialing and Announcing Devices to make solicitation calls shall register with the Secretary's Office of the Alabama Public Service Commission.
  - (13) All local exchange companies shall file appropriate tariff revisions to implement the provisions and procedures for disconnection of service for violation of these rules.
  - (14) Violation of any of the above requirements will result in immediate action to discontinue service.
- (B) Live Telephone Solicitation Calls - The following requirements apply to all live solicitation telephone calls to consumers in the State of Alabama:
- (1) No numbers will be called in sequential fashion.

Sequentially-placed calls refer to those calls dialed by successively increasing or decreasing integers, or similar methods.

- (2) No solicitation calls are allowed on Sundays or holidays. On the days that calls are allowed, none will be placed prior to 8 a.m. or after 8 p.m.
- (3) If the consumer's response is to be recorded, they must be informed of such and permission must be granted.
- (4) Within ten (10) seconds after the called party answers, the name and telephone number of the individual or firm making or paying for the call must be clearly stated.
- (5) Messages must not contain obscene, profane, coercive, or abusive language; solicit the sale of pornographic material or be used for any unlawful purpose.
- (6) If the solicitation call requires a response by the consumer and a charge will apply, the consumer must be informed if the response call is not a free call. The vendor at this time must give the consumer the amount of the charges that will be applied if they respond.
- (7) Emergency and unlisted telephone numbers will not be used with recorded solicitation communication.
- (8) The telephone company is under no obligation to provide lists of customer telephone numbers, or any directory information more accurate or current than that contained in normally published and distributed directories for public use.
- (9) All local exchange companies shall file appropriate tariff revisions to implement the provisions and procedures for disconnection of service for violation of these rules.

- (10) Violation of any of the above requirements will result in immediate action to discontinue service.

## RULE T-18

### Operator Services At Captive Locations

The following requirements apply to operator services at captive locations (as defined in Rule T-2, above):

- (A) (1) Unless otherwise ordered by the Commission, operator assisted and direct dialed service shall be provided at rates no higher than the rates of facility-based interexchange carriers for interLATA service and the rates of Local Exchange Carriers for intraLATA service.
- (2) Unless otherwise ordered by the Commission, operator assisted service shall not be provided at locations that do not have direct dialed service.
- (B) Unless otherwise ordered by the Commission, surcharges for subscribers shall not be billed or collected by the provider.
- (C) The provider shall have available for Commission inspection in Alabama a list, updated monthly, of Alabama customers, and shall file with the Commission the name and address of its location.
- (D) (1) The provider shall identify itself at least once, audibly and distinctly, to the consumer at the beginning of each telephone call and before the consumer incurs any charge for the call.
- (2) The provider shall permit the caller to terminate the telephone call at no charge before the call is connected.

- (E) Where possible, uncompleted calls shall not be billed and, when billed, such charges shall be deleted upon the request of a caller.
- (F) Local exchange service shall not be discontinued for nonpayment of disputed portions of provider's charges.
- (G) Emergency calls shall be immediately connected by the provider to the appropriate emergency service at the caller's location, if possible, or shall otherwise be connected immediately to the caller's local exchange.
- (H) The provider shall disclose immediately to the caller, upon request and at no charge to the caller:
  - (1) A quotation of the rates and charges for the call;
  - (2) The methods by which such rates and charges will be collected; and
  - (3) The methods by which complaints concerning such rates, charges and collection practices will be resolved.
- (I) (1) The provider shall require each subscriber to post on or near the telephone instrument, in plain view of callers:
  - (a) The provider's name, address, and toll-free telephone number;
  - (b) A statement that the rates for operator assisted calls are available on request, and that consumers have a right to obtain access to the common carrier of their choice and may contact their preferred carrier for information on accessing that carrier's service using that telephone.
- (2) The provider shall ensure, by contract or tariff, that each of its subscribers complies with the above posting

requirements.

- (J) (1) Callers shall be provided access to 800 numbers, 10XXX and to 950 access code numbers to obtain access to the desired carrier.
- (2) The provider shall:
  - (a) Ensure, by contract or tariff, that its subscribers do not block 800 and 950 access, and
  - (b) Withhold payment (on a location-by-location basis) of any compensation to subscribers if the provider reasonably believes the subscriber is blocking 800 and/or 950 access, or charging more than the subscriber's charge for a local call for such access.
- (K) The provider shall have reasonable procedures for complaints and shall have a toll-free number(s) for complaints and billing inquiries.
- (L) The provider shall have a billing procedure to bill end users for calls no later than sixty (60) days after the call.
- (M) (1) Rates for calls shall be based on direct mileage between the calling and called locations.
- (2) The provider shall not transfer a call to another provider in such a manner that the subsequent provider will not bill the call from the caller's location, unless the caller so requests after full disclosure.
- (N) (1) Callers shall have access to a live operator (as opposed to a robotic operator) at all times.
- (2) 0 only calls shall be directed only to the local exchange carrier.

- (0) The provider shall provide access to the Alabama Dual Party Relay Center for all customers, in compliance with Rule T-5(E), above.

## RULE T-18.1

### Prepaid Debit Cards

Each telephone utility that provides prepaid debit cards must comply with the following requirements:

1. The value of the card must be printed on the card in either dollars or minutes.
2. The name of the Certificated entity must be printed on the card.
3. If a card has a specific expiration date, it must be printed on the card; otherwise, an explanation of the card's expiration must be printed on the card or in the printed material accompanying the card.
4. Refunds must be made to consumers by the certificated entity if service is suspended.
5. Each card must include a toll-free Customer Service number manned at least 8 hours a day, 5 days a week by a live operator.
6. Customers must be able to learn the cost of an intrastate call prior to purchase.
7. All rates, charges and fees that can be assessed against

the card, and all conditions concerning use of the card must be in material accompanying the card. Usage rates can be charged only for connected minutes.

8. If the card is a sample or other nonfunctioning card, there must be clear information on the card to that effect.

## RULE T-19

### Requirements Concerning Information Services

Requirements concerning 900 Services, 976 Services, and other information services are in the Commission's order(s) entered under Informal Docket U-3113 (See Appendix).

## RULE T-20

### Area Calling Service

- (A) Area Calling Service is a type of telephone service which allows subscribers in a given exchange to place calls to one or more exchanges and to receive a specified discount from long distance message telecommunications service rates.
  - (1) Participation in this service shall be optional on the part of subscribers.
  - (2) Participants in this service will have seven (7) digit dialing into all specified exchanges called.
  - (3) This service may not apply to all classes of service nor is it intended for resale of toll service.

- (4) This service is intended to be offered on a revenue neutral basis.
  - (5) This service shall not have a negative impact on other local exchange companies.
  - (6) Local exchange companies shall not be required to publish directory listings for all subscribers which may be accessed nor shall call detail be required free of charge. However, no more than two (2) copies per subscriber line of existing directories shall be made available at no additional charge to requesting subscribers for other exchange listings which may be accessed by Area Calling Service subscribers.
- (B) Area Calling Service traffic will be considered local rather than toll. The originating traffic will not be considered in the calculation of revenue due to or access charges due from the primary carrier or terminating local exchange carrier. The revenue received will be retained by the local exchange carrier in whose exchange the traffic originates. That company will be responsible for the compensation to carriers completing the call.
- (C) Local exchange companies shall file their plans for this service with the Commission at such time when it is feasible for each company to provide this service. Plans can be filed on a company basis or intercompany basis when networking problems and compensation arrangements can be addressed or have been settled. Filed plans should provide the following information:
- (1) A community of interest factor study to show present toll usage including the number of toll messages and minutes of usage to terminating exchanges per month and hourly

usage per month for each time of day segment.

- (2) An estimate of subscriber penetration.
  - (3) An estimate of call stimulation.
  - (4) An estimate of additional facilities necessary, and their cost.
  - (5) An estimate of toll revenues lost.
  - (6) An estimate of all associated expenses, including terminating access charges, if any.
  - (7) The impact on intraLATA fund revenues, if a participant.
  - (8) The plan buy-in amounts, usage rates per minute and proposed routes with options available.
  - (9) An estimated start-up date.
  - (10) Any additional information deemed necessary by the Commission to perform this analysis.
  - (11) This rule shall not preclude requests for such information from the Commission or its staff at any time deemed necessary.
- (D) The Commission shall analyze plans filed in accordance with this rule and address networking and compensation arrangements.
- (E) Upon approval of a filed plan, the company shall file tariffs for Commission approval implementing its plan, reflecting changes in local service rates including:
- (1) Access line rates.
  - (2) Rates for calling up to a 40-mile radius.

- (3) Options available to subscribers.

## RULE T-21

### Minimum Service Standards

#### (A) Basic Utility Obligations

- (1) Each telephone utility shall provide telephone service to the public in its service area in accordance with rules, service standards, and tariffs on file with the Commission. Such service shall meet or exceed the standards set forth in this document.
- (2) Each telephone utility has the obligation of continually reviewing its operations to assure the provision of adequate service in its certificated area.
- (3) Where a telephone utility is operated in conjunction with any other enterprise, separate records shall be maintained so that the results of the regulated telephone operation may be determined upon reasonable notice and request by the Commission.
- (4) Periodic reports as required by this rule shall be submitted in a timely manner.

#### (B) Acceptable Standards

Unless otherwise specified by the Commission, the telephone utility shall use the applicable provisions in the following publications as standards of accepted practices for the planning, engineering, construction, maintaining, and administration of the telephone plant:

- (1) Company written practices and guidelines, and/or other

written methods proven by long term use.

- (2) Rural Electrification Administration (REA) practices.
- (3) National Electrical Safety Code, and National Electrical Code (current editions).
- (4) REA borrowers shall use REA practices, supplemented (but not replaced) by written company practices and other guidelines.
- (5) Non-REA borrowers shall use Commission approved company practices. As an alternative, they may use REA practices.

(C) Adequacy of Service

- (1) Each telephone utility shall employ industry recognized testing and administrative procedures to determine the adequacy of service being provided to the customer in both establishing new service and maintaining existing service. Records of such testing shall be maintained.
- (2) Traffic and transmission studies shall be made, and records maintained, to the extent and frequency necessary to determine that sufficient plant and an adequate operating force are provided at all times, including the busy hour/busy season.
- (3) Each telephone utility shall provide operator assistance on a twenty-four (24) hour per day basis for both local and long distance service.
- (4) Each telephone utility shall employ adequate procedures for assignment of facilities. Records shall be kept up to date to determine if adjustments are necessary to maintain proper utilization of facilities.

(D) Dial Service Requirements

Sufficient dial switching equipment shall be provided to meet the following minimum requirements at all times, including busy periods:

- (1) Dial tone within three (3) seconds on at least ninety-eight (98) percent of telephone calls.
- (2) Complete dialing of called numbers on at least ninety-five (95) percent of telephone calls without encountering an equipment overflow condition within the local dialing area.

(E) Toll Network Trunk Requirements

Sufficient toll trunks shall be provided so that at least ninety-seven (97) percent of telephone calls offered to the customer will not encounter an equipment overflow condition.

(F) Transmission Requirements

Telephone utilities shall furnish and maintain properly designed plant facilities to provide satisfactory circuit transmission of communications between customers. Circuit transmission shall have adequate volume levels and be free of excessive distortion. Levels of noise and cross-talk shall be such as not to impair communications. The circuit transmission objectives set forth herein are based upon the use of standard telephone (500 type) sets connected to a 48-52 full float volt direct current supply. The minimum transmission objectives are as follows:

(1) Subscriber Loops

- A. 1,000 HZ loss: -8.5db or less.
- B. Loop circuit: not less than 20 ma.
- C. Circuit noise: 30db rnc or less.

D. CKT balance: 50db or greater.

E. Subscriber loops shall have a loop resistance not exceeding the supervision limit of the associated central office equipment, unless equipped with appropriate supervision extending devices to ensure that proper network control signaling and transmission is provided.

(2) Toll Trunks

The overall transmission objective for toll network trunks must meet the following loss and circuit noise objectives:

	<u>Toll</u>	<u>EAS</u>
1,000 HZ loss	-6.0db +/- 1.7db	-3.0db +/- 1.7db
Circuit noise	30dbrnc or less	30dbrnc or less

(G) Provisions for Testing

Each telephone utility shall provide test facilities which will enable it to determine the operating and transmission capabilities of circuit and dial switching equipment, either for routine maintenance or for fault location. Test numbers shall be provided for the following equipment for each central office and/or toll center:

- (1) A quiet termination.
- (2) A 1,000 HZ generator.

(H) Selective Ringing

Telephone utilities shall have as an objective the provision

of full service selective ringing for all telecommunications service.

(I) Traffic Rules (see Rule T-10)

(J) Answering Time

- (1) Adequate forces shall be provided for toll, assistance calls and directory assistance to meet the service objective of an answering time of 10 seconds.
- (2) The service objective for calls to the business office and repair service shall be ninety (90) percent within twenty (20) seconds.
- (3) The service objective for operator number identification (ONI) on toll calls where automatic number identification (ANI) is not available shall be ninety (90) percent within twenty (20) seconds.

(K) Maintenance of Plant and Equipment

- (1) Each telephone utility shall adopt and pursue a preventive maintenance program aimed at achieving efficient operation of its system so as to permit the rendering of safe, adequate service performance. Broken, damaged or deteriorated parts which are no longer serviceable shall be repaired or replaced. Adjustable apparatus and equipment shall be readjusted as necessary when found by preventative maintenance not to be in proper operating condition.
- (2) The telephone utility shall maintain records descriptive of its preventative maintenance program indicating work accomplished and planned, which is carried out on a routine periodic basis, for the various categories of equipment and plant.
- (3) Work performed in response to trouble is not considered

preventive maintenance.

- (4) Every cable pair entering a central office shall be terminated on a main distributing frame (MDF) protector assembly or equivalent. Each cable pair shall be equipped with a protector module regardless of whether it is a working or non-working pair. Temporarily disconnected pairs shall not be left unprotected.
- (5) Each mainframe protector assembly shall be bonded to the adjacent protector on that vertical, and the end protector bonded to the MDF Ground Bar (MDFB) with a #6 or larger copper conductor.
- (6) All outside plant cables shall have their shields bonded to the cable entrance ground bar (CEGB) which is normally located close to the entrance location, or at the location of first opportunity (usually at the MDF).
- (7) All central office grounds measurements should comply with Commission Docket 18658 as per Commission order dated March 7, 1990.

(L) Emergency Operations

- (1) Each telephone utility shall make reasonable provisions to meet emergencies resulting from failures of lighting or power service, sudden or prolonged increase in traffic, illness of operators, or from fire, storm, or act of God, and each telephone utility shall inform employees as to procedures to be followed in the event of emergency in order to prevent or mitigate interruption or impairment of telephone service.
- (2) It is essential that all central offices and toll centers have adequate provisions for emergency power. Central offices that have twenty-four (24) hour maintenance coverage or have an automatic start engine alternator

shall provide a minimum of three (3) hours of battery reserve. All other central offices shall have a minimum of eight (8) hours of battery reserve. There shall be a mobile/portable emergency generator available within the company which can be delivered and connected on short notice. These central offices and generators shall be equipped with quick-connect connections.

(M) Provision of Service

- (1) It shall be the service objective of all telephone utilities to fulfill ninety (90) percent of requests for residential service within five (5) working days of the receipt of the request unless the applicant specifically requests a later date.
- (2) The service objective for residential regrades shall be to fulfill ninety (90) percent of requests within five (5) days unless the applicant specifically requests a later date. The service objectives will be the same for business customers but is contingent upon availability of special equipment and special design requirements.
- (3) Applications for special service shall be filled in as expeditious a manner as equipment and facilities will permit.
- (4) All applications for any service which are not completed within 30 days from due date shall be considered as a held application.
- (5) When, because of circumstances beyond the control of the telephone utility it is not possible to provide service within the time limits specified above, the telephone utility shall promptly notify the applicant of the reason for the delay and give an estimated service date based upon the best available information. Telephone utility personnel shall refrain from making unwarranted

commitments without first having ascertained that they can reasonably be met. It shall be the service objective of all telephone utilities to meet ninety (90) percent of all commitments made, except for customer caused delays and acts of God.

- (6) In those instances where commitments cannot be met, the applicant shall be notified at the earliest possible time.
- (7) Additionally, each telephone utility shall keep a record of held orders by exchanges showing the name and address of each applicant for service, the date of application, date service is desired, the class and grade of service applied for, together with the reason for the inability to provide the new or regraded service to the applicant.
- (8) When, because of a shortage of facilities, a telephone utility is unable to supply telephone service on dates requested by applicant, first priority shall be given to furnishing those services which are essential to public health and safety. A monthly "Held Order" report will be furnished to the Commission listing each applicant by exchange, name, address, date of application, reason for the inability to serve, and the estimated completion date for each order, for all held orders for both new and regraded service. In cases of prolonged delays in service acquisition or other emergency, the Commission may require the company to establish a priority plan subject to Commission approval for held orders, and may request periodic reports clearing the progress being made.

(N) Service Interruption

- (1) Each telephone utility shall make all reasonable efforts to prevent interruptions of service. Arrangements shall be made to receive customer trouble reports twenty-four (24) hours daily and to clear troubles of an emergency

nature at night and weekends, as well as during regular working hours, consistent with bona fide needs of the customer and personal safety of telephone utility personnel.

- (2) Each telephone utility shall maintain an accurate record of trouble reports made by its customers. This record shall include appropriate identification of the customer, of service affected, the time, date and nature of the report, and action taken to clear trouble or satisfy the complaint and the date and time of trouble clearance or other disposition. This record shall be available to the Commission or its authorized representatives upon request, and shall be retained for a minimum of twelve (12) months.
- (3) All repair service commitments to customers shall be kept, unless customers are timely notified of unavoidable delays. If unusual repairs are required, or other factors preclude clearing of reported trouble promptly, reasonable efforts shall be made to notify affected customers.
- (4) The service objective shall be to clear ninety (90) percent of out-of-service (no service) troubles, not requiring unusual repair, within twenty-four (24) hours of the report received by the telephone utility, unless the customer specifically requests a later time (except Sundays and holidays).
- (5) It shall be the service objective to so maintain the service that the average rate of customer trouble reports in each exchange is no greater than five (5) per 100 access lines.
- (6) It shall be the service objective for repeated repair reports on the same access line or related equipment occurring within one (1) month of the initial report to be no greater than eight (8) percent in each exchange.

- (7) Each telephone utility shall maintain an accurate record of customer trouble reports and repeated repair reports for each exchange for the service objectives (N) (5) and (6). This record shall be available to the Commission, or its authorized representative, upon request, and shall be retained for a minimum of twelve (12) months.

(0) Construction Work Near Utility Facilities

Even though all contractors working in the vicinity of telephone utility lines or structures are responsible for exercising due diligence in preventing damage to telephone utility property or interruption to telephone utility service, telephone utilities shall, when requested, furnish to contractors appropriate information concerning location of underground conduit, cable, and other equipment in order to prevent any interruption of service to telephone customers. Nothing in this rule is intended to affect the responsibility, liability or legal rights of any party under applicable laws or statutes.

(P) Extensions of Service

- (1) The telephone utility shall extend service to applicants within each exchange of the franchised area without a construction charge unless the cost to serve the applicant is prohibitively expensive. This will be determined by the provisions in the applicable telephone utility tariff on file with the Commission.
- (2) Each telephone utility shall have a commercial forecast for each exchange area based upon historical as well as other pertinent data. This forecast shall include short term and long term forecasted data. The short term shall include five years of forecasted data. The long term shall be for a minimum period of 10 years. This will be filed with the Commission attached to the annual report

Form CE-2. This information may be designated as "proprietary", and not available to the general public.

- (3) Each telephone utility shall have a facility design for its franchised area, by exchange, to serve every usable residential or commercial building. This facility design shall be available upon request and will be updated each year showing projects in progress and projects to be worked the next twelve (12) months with estimated cost of the project, or if the bid has been let, the update shall include the actual cost of the project. This facility design will be filed with the Commission attached to the annual report Form CE-2 upon request.
- (4) Any applicant desiring an extension to a proposed project requiring telephone service may be required to pay the entire cost (construction charge) of the extension. This will be determined by the provisions in the applicable telephone utility tariff on file with the Commission.
- (5) Nothing contained herein shall be construed as to prohibit a telephone utility from making at its expense greater extensions than herein prescribed should its judgment so dictate, provided like extensions are made to other customers under similar circumstances.
- (6) Upon complaint to, and after an investigation by the Commission, a telephone utility may be required to construct extensions greater than provided for in the applicable telephone utility's tariff upon a finding by the Commission that such extension is reasonable.

(Q) Safety

- (1) Each utility shall adopt and execute a safety program fitted to the size and type of its operations. The utility shall observe all rules of the National Electrical Safety Code.

(2) Each telephone utility shall provide the following items in the telephone central office building located in the vicinity of the central office batteries and available for quick access:

(a) Central office battery, safety kit, to include:

- (i) Eye wash kit.
- (ii) Rubber gloves.
- (iii) Apron.
- (iv) Goggles.

(b) First aid kit.

(R) Deviations From Rules

Upon written application showing good cause therefore, deviations from these rules may be permitted by order of the Commission.

## RULE T-22

### Accounting Rules

(A) The following shall be known as the Uniform System of Accounting and Reporting for Telephone Utilities. Appropriate and definite instructions shall be given each kind and class of utility hereafter as to classification of accounts and forms of reports. Utility, as herein used, shall be held to include all telephone and telegraph companies as defined in Title 37 of the Code of Alabama of 1975.

(B) All utilities shall keep their books of record in accordance

with the Uniform System of Accounts applicable to their kind and class as herein prescribed by this Commission.

- (C) (1) All Local Exchange Carriers shall keep their books and records in accordance with the currently effective Uniform System of Accounts of the Federal Communications Commission.
- (2) All telecommunications carriers, except Local Exchange Carriers, shall keep their books and records in accordance with Generally Accepted Accounting Principles applied on a consistent basis.
- (D) The classification which governs the minimum detail in which each utility shall keep its accounts, shall be determined according to the annual gross operating revenue of such utility as more fully set forth in the general instructions contained in the Uniform System of Accounts prescribed for it herein.
- (E) Each utility shall so keep its general, subsidiary and books of original entry, together with all documents pertaining to either plant or operating accounts as to clearly reflect the cost of its properties, including additions thereto and retirements therefrom; also as to correctly record income and expense and to facilitate the calculation of gross and net returns. Each entry must be capable of support by definite history of the transaction recorded to the end that ready and exact verification in detail of all facts may be obtained. The books and records to which reference is made in the paragraph include not only those called books in a technical sense, but all stock books, minute books, charts, maps, drawings, contracts and writings, invoices, vouchers of whatever nature, store room records and other records which are connected with the operations and history and development of the utility and its properties.
- (F) Every utility furnishing service within this State must either keep its books of account and records at its principal place

of business in this State, or keep and preserve them elsewhere, and deliver them at its principal place of business in the State, at such reasonable time or times as the Commission may direct, for examination and inspection.

- (G) Where the same company operates in Alabama as well as in other states, it shall keep its investment, revenue and expense accounts for its property in the State of Alabama, separately from those of its property in other states.
- (H) The books and records of all utilities shall be open for examination and inspection by members of the Commission or its authorized representatives or employees at any reasonable time.
- (I) Each utility within the jurisdiction of this Commission shall file annual financial operating and statistical reports upon forms prescribed by or authorized by the Commission and such other reports of like nature at more frequent intervals as may be required by direction of the Commission from time to time. All footnotes and instructions contained on the report forms prescribed or authorized by the Commission for making annual reports must be carefully observed.
- (J) The above prescribed annual report shall be filed with the Commission on or before the first day of the fourth month following the end of the reporting utility's fiscal year. The report shall be a true and correct statement of facts as contained in the books and records of the utility.
- (K) All annual reports and other reports made to the Commission shall be signed and sworn to by the President (or Vice President) and Treasurer or other officer in charge of such accounting, or, if under trust or receivership operation, by majority of trustees or receivers, or, if unincorporated, by the proprietor, manager or auditor.
- (L) All annual reports must be made in triplicate and two copies thereof returned to the Commission and the third copy retained

in the files of the utility for permanent reference.

- (M) The Commission may, from time to time, alter or amend, or make such modifications with respect to the application of, the above prescribed rules and regulations as may be deemed necessary and proper to meet changed and exceptional conditions.
- (N) The above prescribed rules and regulations are not intended to and shall not have the effect of abrogating, repealing or modifying rules of specific application which have heretofore been authorized or which may in the future be authorized for any utility.

## RULE T-23

### Prohibited Activities

- (A) Operator services shall not be provided from one location in Alabama to another location in Alabama unless the operator services provider has obtained a certificate from this Commission and complied with the other provisions of state law and the rules, regulations and orders of this Commission.
- (B) Resale services shall not be provided from one location in Alabama to another location in Alabama unless the resale services provider has obtained a certificate from this Commission and complied with the other provisions of state law and the rules, regulations and orders of this Commission.
- (C) Aggregators that contract with a carrier for service and use their rates for their customers are considered to be resellers and must obtain a certificate and comply with other requirements.
- (D) (1) Shared Tenant Service shall not be provided unless the

provider has obtained a certificate from this Commission and complied with the rules, regulations and orders of this Commission.

- (2) Shared Tenant Service providers shall not resell toll telephone service or local service over pay telephones (see Dockets 19512 and 19576, April 8, 1986, and Dockets 19512 and 19576, November 27, 1989).
  - (3) Shared Tenant Service providers shall not delete a location in its certificate without written approval of the Commission. To request such approval, the provider must submit a written request (original and 2 copies) that describes the location and the reasons for discontinuing service.
  - (4) Shared Tenant Service providers shall not add a location to its certificate without an order of the Commission. To request such order, the provider must submit a completed application form (original and 2 copies) for each requested location.
- (E) Local exchange carriers shall not provide intrastate access to resellers, Shared Tenant Service providers, operator service providers, and aggregators that have not been granted a certificate by this Commission.
- (F) Local exchange carriers shall not provide telephone service to subscribers that do not have a point of use within the boundary lines of the authorized service area as depicted on its exchange area boundary map currently on file with the Commission. Also, local exchange carriers shall not provide service under circumstances where the subscriber's primary point of use is within another carrier's exchange boundary and the subscriber does not subscribe to the service of such other carrier.
- (G) A person, or firm or company shall not place a live or automated solicitation call to a number when the person, firm

or company, or its predecessor or owners, have been advised that solicitation calls are not welcome at that number.

- (H) (1) Interexchange carriers shall not use deceptive or confusing marketing practices.
- (2) Interexchange carriers shall not initiate a change of primary interexchange carrier for a subscriber without a letter of agency that complies with the rules of the Federal Communications Commission.

## RULE T-24

### Notification Of Requests To Commence Interconnection Negotiations

- (A) Parties must notify the Commission within ten (10) days of receiving a request for interconnection negotiations pursuant to Section 252 of the Telecommunications Act of 1996. Any telecommunications carrier which operates on a regional basis should also notify the Commission of any requests for interconnection negotiations of a regional nature which would in any way impact their Alabama operations. At a minimum, the notification required herein shall include:
  - (1) The names of the negotiating parties.
  - (2) The date the request to commence negotiations was made.
  - (3) A statement of whether there are negotiations with the requesting party in other jurisdictions and whether the negotiations are regional in nature or state specific.
- (B) An original and ten (10) copies of said notification shall be filed with the Secretary of the Commission. The notification required herein must also be served on all parties to the negotiations and include a proper certificate of service.

- (C) If upon the ninetieth (90th) day following the request for negotiations an agreement has not been consummated and submitted to the Commission for approval, the party submitting the original notification must, within 10 days thereafter, notify the Commission by written statement of the status of the negotiations. Said written statement must comply with the aforementioned service requirements.
- (D) All telecommunications carriers which received requests for interconnection negotiations prior to the implementation of these rules shall immediately notify the Commission of the status of all such requests by filing a notification which meets the requirements specified above.
- (E) All telecommunications carriers which have made or received requests to renegotiate interconnection agreements entered into prior to the passage of the Telecommunications Act of 1996 shall immediately notify the Commission of the status of such negotiations by filing a notification which meets the requirements specified above.

## RULE T-25

### Requests For Mediation

- (A) Any party to negotiations conducted pursuant to Section 252 of the Telecommunications Act of 1996 may petition the Commission to mediate any issues which are unresolved between the negotiating parties by filing an original and ten (10) copies of a petition for mediation. Said request shall simultaneously be served upon all the parties to the negotiations for which mediation is being sought. At a minimum, the request for mediation shall include:
  - (1) The names, addresses, telephone numbers, and facsimile numbers of the parties to the negotiations and their authorized representatives.
  - (2) A statement of relevant background information which

shall include the date on which the negotiations were requested.

- (3) A brief statement of position on each of the unresolved issues.
- (B) The parties to negotiations for which mediation is sought who do not join in the petition for mediation shall file replies to the petitioning party's request for mediation within ten (10) days of the date of service of the request for mediation. Although mediation will be conducted on a nonbinding, voluntary basis, all parties to interconnection negotiations for which mediation is sought are strongly encouraged to submit to mediation. Failure to do so may be perceived as a failure to negotiate in "good faith" as is specifically required by the Telecommunications Act of 1996 at Section 251(c)(1).
- (C) Following the receipt of a request for mediation which complies with the above requirements and any replies thereto, the Commission will appoint a Commission employee to lead the mediation of the unresolved issues between the parties. The Commission may, at its discretion, however, appoint a mediator who is not a Commission employee to lead the mediation. The mediator may receive technical assistance from the Commission staff.
- (D) Mediation is a voluntary, non-binding, alternative dispute resolution process. The mediator appointed shall be authorized to offer settlement proposals, but cannot impose a settlement on the parties. The mediator's primary role is to help the parties achieve their own resolution.
- (E) The mediator will schedule all meetings in consultation with the parties. Only the mediator, Commission staff members selected by the mediator or the Commission to provide technical support, and the parties to the negotiations may attend meetings unless all parties mutually consent otherwise. In order to facilitate settlement, the mediator and Commission

technical support staff may meet with the parties individually.

- (F) The mediator may request that supplemental information be filed. The mediator cannot, however, compel discovery among the parties. All discussions and information exchanged during the mediation process will be confidential between the parties and the Commission unless the parties mutually consent otherwise. The mediator's statements as to law or policy are not binding on the Commission and the positions taken by the parties during mediation will not prejudice their position in any later proceedings.
- (G) The parties to the mediation must be represented by participants who have the authority to enter into a settlement concerning the matters at issue.
- (H) The mediator may terminate the mediation if it appears in his or her judgment that the likelihood of agreement among the parties is remote or if a party is not participating in good faith, or for other good cause. The parties shall be notified in writing of such a decision by the mediator.

## RULE T-26

### Requests For Arbitration

- (A) General Provisions Governing Petitions For Arbitration
  - (1) Any party to interconnection negotiations conducted pursuant to Section 252 of the Telecommunications Act of 1996 may petition the Commission to arbitrate any unresolved issues in their negotiations during the period

from the 135th to the 160th day (inclusive) after the date on which an incumbent LEC receives a request for negotiation.

(2) Petitions for arbitration shall be verified or submitted by affidavit and shall include at a minimum the following information:

(a) The date on which the original request for negotiations was received.

(b) A brief statement addressing with specificity, the disputed issues and setting out the position of the parties on such issues. Further, the statement must allege how the positions of other parties to the negotiations meet, or fail to meet the requirements of Section 251 of the Telecommunications Act of 1996, or any Federal Communications Commission or Alabama Public Service Commission rule, regulation or guideline.

(c) A brief statement of the issues which have been resolved by the parties and a description of the resolution of same.

(d) Where prices are in dispute, the petitioning party shall submit its proposed rates or charges and all relevant cost studies, and related supporting materials.

(e) Any conditions which the petitioning party requests be imposed.

(f) A proposed schedule for implementation of the terms and conditions by the parties to the negotiations.

(g) Any requests for discovery of information from other parties along with an explanation of why the

discovery of the information requested is necessary.

- (h) All prefiled testimony and any other documentation relevant to the dispute including copies of all documents in their possession or control on which they rely in support of their positions, or which they intend to introduce as exhibits at the arbitration hearing.
  - (i) At the petitioning parties option, a proposed interconnection agreement may be submitted.
  - (j) The petitioning party may request the consolidation of its arbitration with another arbitration proceeding pending at the Commission provided grounds supporting the request are submitted therewith.
- (3) An original and ten (10) copies of the petition for arbitration and all other required information must be filed with the Secretary of the Commission. The petition and all required documentation shall, on the same day it is served on the Commission, be served on all parties to the negotiations for which arbitration has been requested. Such service on interested parties shall be demonstrated by a proper certificate of service. Petitions for arbitration which do not substantially comply with the aforementioned requirements may, in the discretion of the Commission, be rejected.

(B) Responses To Petitions For Arbitration

- (1) Parties to the negotiations for which arbitration has been requested who do not join the request for arbitration shall have twenty-five (25) days from the date the Petition for Arbitration is filed with the Commission to submit a response to the Petition.

- (2) All responses to Petitions for Arbitration shall be verified or submitted by affidavit and shall include at a minimum the following information:
- (a) A brief statement addressing with specificity, the disputed issues and setting out the position of the parties on such issues. Further, the statement must allege how the positions of other parties to the negotiations meet, or fail to meet, the requirements of Section 251 of the Telecommunications Act of 1996 or any Federal Communication Commission or Alabama Public Service Commission rule, regulation or guideline.
  - (b) Where prices are in dispute, the responding party shall submit its proposed rates or charges and all relevant cost studies and related supporting materials.
  - (c) A brief statement of the issues which have been resolved by the parties and a description of the resolution of same.
  - (d) Any conditions which the responding party requests be imposed.
  - (e) A proposed schedule for implementation of the terms and conditions by the parties to the agreement.
  - (f) The discovery information requested in the petitioning parties Request for Arbitration along with any discovery requests the respondent has in its own regard. Such discovery requests shall be accompanied by an explanation of why the information requested is necessary.
  - (g) All prefiled testimony and any other documentation relevant to the dispute including copies of all

documents in their possession or control on which they rely in support of their position, or which they intend to introduce as exhibits at the Arbitration Hearing.

- (h) At the responding parties option, a proposed interconnection agreement may be submitted.
  - (i) If the petition for arbitration which is being responded to included a request to consolidate with another pending arbitration proceeding, the responding party should specify its position regarding the consolidation requested.
- (3) An original and ten (10) copies of responses to petitions for arbitration and all of the supplemental information required herein must be filed with the Secretary of the Commission. The response and all accompanying documentation required herein shall, on the same day it is served on the Commission, be served on all parties to the negotiations for which arbitration has been requested. Such service on interested parties shall be demonstrated by a proper certificate of service.

(C) Appointment of an Arbitration Panel and Facilitator

- (1) Within fifteen (15) days following the receipt of a request for arbitration which complies with the above requirements, the Commission will, pursuant to Code of Alabama, 1975, Section 37-1-89, appoint a special examiner to act as the facilitator of an arbitration panel which will also be appointed by the Commission. The arbitration panel will consist of the arbitration facilitator and two (2) additional panelists. Each Commissioner will appoint one member of the arbitration panel with the selection of the arbitration facilitator to rotate between the Commissioners. At the discretion of the Commission, the arbitration facilitator and the remaining members of the arbitration panel will be

comprised of either Commission employees or non-biased third parties who are not Commission employees.

- (2) The arbitration panel shall conduct an arbitration hearing which shall be presided over by the arbitration facilitator. It will be the responsibility of the arbitration panel to formulate a recommendation for the resolution of the issues being arbitrated which, if adopted by Commission order, will be binding on the parties to the arbitration.
- (3) The Commission may, in its discretion, forego the above procedures if it determines that a particular petition for arbitration should be consolidated with a pending arbitration proceeding.

(D) Confidentiality

Until such time as the arbitration panel appointed formulates an arbitration recommendation which is submitted to the Commission for approval, any information specifically identified as being proprietary and submitted during the arbitration process will be considered and treated as confidential by the Commission. It shall be the responsibility of the parties to the arbitration to negotiate appropriate protective orders or agreements for the exchanges of information deemed proprietary.

(E) General Rules For Discovery

- (1) All parties shall request and provide information through discovery in good faith. Any failure to cooperate in the discovery phase should be brought to the immediate attention of the arbitration facilitator and may result in a finding of failure to negotiate in good faith.
- (2) Upon a finding of a failure to negotiate in good faith, the arbitration facilitator may at any point suspend the proceedings until compliance is obtained; strike all or

any of the documents of such party; refuse to allow such party to support designated claims or defenses; or, proceed on the basis of the best information available from whatever source derived.

- (3) As noted previously in these rules, the party petitioning for arbitration shall submit its requests for discovery and the required statement of justification therefor with its Petition for Arbitration. Respondents must submit the Discovery information requested by the party petitioning for arbitration along with their response to the Petition for Arbitration. The response to the Petition for Arbitration shall also include the respondents discovery requests and the required statement of justification therefor. The party petitioning for arbitration must submit the information requested by the respondent on discovery within ten (10) days of the filing date of the respondents request for said information.

(F) Prearbitration Hearing Conference

As soon as practicable following his or her appointment by the Commission, the arbitration facilitator shall schedule a prehearing conference between the arbitration panel and the parties to the arbitration to determine among other things:

- (1) The scheduling of the required arbitration hearing;
- (2) Identification and simplification of issues;
- (3) Amendments to documents;
- (4) Limitations on the number of witnesses;
- (5) Issuance of rulings denying, limiting, conditioning or regulating discovery requests;
- (6) The issuance of rulings supervising all or any part of any discovery procedure; and

- (7) Such other matters as may aid in the simplification of the issues and disposition of the proceeding.

(G) The Arbitration Hearing

- (1) The Arbitration Hearing will be conducted pursuant to the Commission's Rules of Practice except as specifically noted to the contrary herein. The arbitration facilitator will preside over the hearing.
- (2) Unless the consolidation of related issues and matters is deemed necessary by the Commission pursuant to §252(g) of the Telecommunications Act of 1996, only the parties to the negotiations for which arbitration has been requested will be permitted to attend and participate in the arbitration process, including the arbitration hearing. The Commission may, at its discretion, however, allow a third party to attend, but not participate in an arbitration hearing if such party can demonstrate in a written petition that its attendance is necessary due to a compelling public interest. An original and ten (10) copies of any such petition by a non-party should be served on the Secretary of the Commission at least seven (7) days prior to the arbitration hearing with simultaneous service on all parties to the arbitration. Such service to be demonstrated by a proper certificate of service.
- (3) The party filing the Petition for Arbitration shall begin the arbitration hearing by presenting all of its witnesses to be cross-examined. The party filing the response to the Petition for Arbitration shall then present all of its witnesses to be cross examined. When the parties jointly file the Petition for Arbitration, the arbitration facilitator shall decide the order in which the parties shall present their witnesses for cross examination.

- (4) The arbitration panel will limit its consideration of any petition for arbitration and any response thereto to the issues raised in the petition or in the response. The parties to the arbitration may be required to provide additional information at the request of the arbitration panel if the arbitration panel deems such information necessary to the rendering of a decision on the unresolved issues. Information so requested of any party will, at the same time it is provided to the arbitration panel, be provided to the other parties to the negotiations for which arbitration was requested. If any party refuses or fails to respond on a timely basis to any reasonable request from the panel for information, the panel may proceed on the basis of the best information available to it from whatever source derived.
- (5) A complete record of all arbitration proceedings shall be transcribed by a reporter appointed by the Commission. In the event that expedited transcripts are required in order to meet the mandates of the Telecommunications Act of 1996 at Section 252(b)(4), the cost of preparation of those expedited transcripts will be borne by the party petitioning for arbitration.

(H) Submission of Agreement on Negotiated Issues

Within ten (10) days following the conclusion of the arbitration hearing(s), the parties shall submit to the arbitration panel an agreement governing all matters that have been successfully negotiated between the parties and which, excluding the issues being arbitrated, constitute the entire agreement of the parties. Said agreement shall comply with the requirements of Rule T-27(C).

(I) Recommendation of the Arbitration Panel

- (1) As soon as practical following the conclusion of the arbitration hearing(s) and the submission by the parties to the arbitration of their agreement governing

successfully negotiated issues, the arbitration panel will issue an arbitration report and recommendation resolving each issue set forth in the petition for arbitration and the response thereto. Said report and recommendation shall impose conditions that ensure that the resolution and conditions recommended meet the requirements of Section 251 of the Telecommunications Act of 1996. The report and recommendation shall also establish rates for interconnection services or network elements in accordance with Section 252(d) of the Telecommunications Act of 1996 as applicable, and shall provide a schedule for implementation of the terms and conditions by the parties to the agreement.

- (2) The Commission shall serve the arbitration report and recommendation on the parties to the arbitration and on all parties on the Commission's Telecommunications service list. The Commission shall also serve on all parties on the Commission's Telecommunications service list the written statements which are required by Rules T-26(H), and T-27(C) (2) and T-27(C) (3) to accompany the agreement of the parties to the arbitration concerning successfully negotiated issues. Interested parties who were not parties to the arbitration shall have ten (10) days to file comments concerning the arbitration panel's arbitration report and recommendation and the agreement of the parties to the arbitration concerning negotiated issues. Following the expiration of the 10-day period, the parties to the arbitration shall have ten (10) days to file reply comments addressing the filings received from non-parties as well as exceptions to the arbitration panel's arbitration report and recommendation.

(J) Commission Review of the Arbitration Report and Recommendation

Following all comment cycles, the Commission will review the arbitration report and recommendation of the arbitration panel, the agreement of the parties concerning successfully negotiated matters, any comments filed by non-parties to the

arbitration, and any comments and exceptions filed by the parties to the arbitration. The Commission will then enter an arbitration order resolving the issues between the parties to the negotiations for which arbitration was sought and addressing the agreement of the parties on successfully negotiated issues not later than nine (9) months after the date on which the local exchange carrier received the request for negotiations which resulted in arbitration.

## RULE T-27

### Approval Of Negotiated Interconnection Agreements

- (A) Negotiated interconnection agreements must be submitted for Commission approval within fifteen (15) days of the execution of such agreements unless such time period is extended by the Commission.
- (B) The original and ten (10) copies of all requests for the approval of negotiated agreements and the supporting documentation required below must be filed with the Secretary of the Commission. The party petitioning for approval shall simultaneously with its service on the Commission also serve on all other parties to the negotiations the petition for approval and the supporting documentation required below unless all parties to the negotiations jointly submit the request for approval. In addition, parties requesting approval of negotiated agreements shall serve the petition for approval (excluding the supporting documentation) and the statements which are required to accompany same by C(2) and C(3) below on all parties on the Commission's Telecommunications service list. The service required herein shall be demonstrated by proper certificate of service.
- (C) The request for approval shall include at a minimum:
  - (1) A complete copy of the signed agreement including all

attachments and appendices.

- (2) A written statement setting out the main provisions of the agreement and the positions of the parties regarding approval and/or modification.
  - (3) A statement as to why the agreement does not discriminate against nonparties, is consistent with the public convenience and necessity and/or the public interest; and is consistent with the orders, rules and regulations of the Alabama Public Service Commission.
- (D) Requests for approval of negotiated agreements which do not comply with the above requirements will be rejected and shall not be deemed to commence the running of the ninety (90) day approval period specified at Section 252 (e) (4) of the Telecommunications Act of 1996.
- (E) Any interested party may submit comments concerning a negotiated agreement presented for approval within twenty (20) days of the filing of said agreement. Any comments must contain supporting documentation and will be limited to the criteria for review established under Section 252 (e) (2) (a) of the Telecommunications Act of 1996. The parties to the negotiated agreement may submit replies to any comments filed within seven (7) days of the filing of such comments with the Commission.
- (F) The Commission, at its discretion, may set any negotiated agreement submitted for approval for hearing if it determines from the comments received and/or on its own motion that a hearing is necessary to determine with certainty whether the negotiated agreement clearly complies with the requirements of the Telecommunications Act of 1996. Said hearings will be conducted pursuant to the Commission's existing Rules of Practice.

### Approval Of Arbitrated Agreements

- (A) Arbitrated agreements must be submitted for Commission approval within twenty (20) days of the entry of the Commission's Order resolving the issues between the parties to the negotiations for which arbitration was sought.
- (B) The original and ten (10) copies of all requests for the approval of arbitrated agreements and the supporting documentation required below must be filed with the Secretary of the Commission. The party petitioning for approval shall simultaneously with its service on the Commission also serve on all other parties to the arbitration the petition for approval and the supporting documentation required below unless all parties to the arbitration jointly submit the request for approval. In addition, parties requesting approval of arbitrated agreements shall serve the petition for approval (excluding the supporting documentation) and the statements required by C(2) and C(3) below on all parties on the Commission's Telecommunications service list. The service required herein shall be demonstrated by a proper certificate of service.
- (C) The request for approval shall include, at a minimum:
  - (1) A signed copy of the arbitrated agreement, including all attachments and appendices thereto.
  - (2) A brief statement summarizing the main provisions of the agreement and the position of the parties concerning adoption or modification of the agreement.
  - (3) A statement as to how the agreement meets the requirements of Section 251 of the Telecommunications Act of 1996 and all other Federal Communications Commission and Alabama Public Service Commission rules, regulations

and guidelines; and is consistent with the pricing standards set forth at Section 252(d).

- (4) Complete and specific information which will enable the Commission to make determinations regarding pricing standards under Section 252 (d) of the Telecommunications Act of 1996 including but not limited to supporting information for (i) the cost basis for rates for interconnection and network elements and the profit component of the proposed rate, (ii) transport and termination charges, and (iii) wholesale prices.
- (D) All arbitrated agreements submitted for approval which do not comply with the above requirements shall be rejected and shall not commence the running of the thirty (30) day approval period specified in the Telecommunications Act of 1996 at Section 252(e) (4).
- (E) Any interested party may request a hearing on an arbitrated agreement submitted for approval provided the original and ten (10) copies of said request for hearing are filed with the Secretary of the Commission before 5 p.m. CST of the fifth (5th) day following the filing of the agreement with the Commission. Based on such request(s), or its own motion, the Commission may, at its discretion, schedule a hearing on any arbitrated agreement submitted for approval. Said hearing shall be held on or about the fifteenth (15th) day following the filing of the agreement. Said hearing will be conducted in accordance with the Commission's Rules of Practice to the extent possible, except that the Commission may specifically limit participation in the proceeding to the extent it deems necessary due to time constraints.
- (F) Interested parties may submit comments concerning the agreement submitted for approval within fifteen (15) days of the filing of the agreement with the Commission. The original and ten (10) copies of any such comments should be served on the Secretary of the Commission with simultaneous service on all parties to the Commission's telecommunications service

list.

- (G) The Commission will review arbitrated agreements submitted for approval, any comments submitted in response thereto, and the record of any hearing held on the agreement. Following said review, the Commission will enter an order approving or rejecting the agreement within thirty (30) days of its filing. The Commission may only reject the agreement if it finds that the agreement does not meet the requirements of Section 251 of the Telecommunications Act of 1996, any regulations prescribed by the Federal Communications Commission pursuant to Section 251, or the requirements established by Section 252(d) of the Act.

## RULE T-29

### Rural Telephone Company Exemptions, Suspensions And Modifications

#### (A) Exemptions

- (1) Subject to certain limitations, §251(f) of the Telecommunications Act of 1996 exempts rural telephone companies from the obligations of §251(c) of the 1996 Act until (i) such company has received a bonafide request for interconnection, services, or network elements, and (ii) this Commission determines that such request is not unduly economically burdensome; is technically feasible; and is consistent with §254 of the 1996 Act (other than subsections (b)(7) and (c)(1)(D) thereof.)
- (2) Any party making a bona fide request of a rural telephone company for interconnection, services, or network elements shall simultaneously submit an original and ten (10) copies of its request to the Secretary of the Commission.
- (3) Upon receiving the notification specified above, the Commission may, at its discretion, establish a hearing

for purposes of determining whether the request is unduly economically burdensome; is technically feasible; and is consistent with §254 of the 1996 Act (other than subsections (b) (7) and (c) (1) (D) thereof.)

- (4) The Commission shall render its determination as to whether the rural telephone company's exemption shall be terminated within 120 days from the date the notice of the request for interconnection services or network elements was received by the Commission. Should the exemption be terminated, the Commission shall establish an implementation schedule for compliance with the request that is consistent in time and manner with any regulations of the Federal Communications Commission.

(B) Suspensions and Modifications

- (1) Pursuant to §251(f) (2) of the Telecommunications Act of 1996, local exchange carriers in Alabama with fewer than two (2) percent of the nation's subscriber lines installed in the aggregate nationwide may petition the Commission for a suspension or modification of the application of a requirement or requirements of subsection (b) or (c) of §251 to telephone exchange service facilities specified in such a petition. The original and ten (10) copies of such a petition shall be filed with the Secretary of the Commission, with simultaneous service on all parties on the Commission's telecommunications service list. Said service to be demonstrated by a proper certificate of service.
- (2) Within twenty (20) days of the filing of such a petition with the Commission, interested parties may file responsive comments thereto.
- (3) At its discretion, the Commission may establish a hearing on the petition for suspension and/or modification.
- (4) The Commission will grant such a petition to the extent

that, and for such duration as, the Commission determines that such suspension or modification:

(a) is necessary:

- (i) to avoid a significant adverse, economic impact on users of telecommunications services generally;
- (ii) to avoid imposing a requirement that is unduly, economically burdensome; or
- (iii) to avoid imposing a requirement that is technically infeasible; and

(b) is consistent with the public interest, convenience and necessity.

- (5) The Commission's final decision on a petition for suspension or modification shall be entered within 180 days from the date such petition is received by the Commission. Pending such a decision, the Commission may, by interim order, suspend the enforcement of the requirement or requirements to which the petition applies with respect to the petitioning carrier or carriers.

## RULE T-30

### Fees And Costs

Each party in arbitration or mediation proceedings shall be responsible for bearing their own fees and costs and shall pay any fees imposed by the Commission as allowed by statute.

## RULE T-31

## Telephone Solicitation Regulations - Do Not Call Register

### (A) Definitions

In the interpretation of this rule, the following definitions shall be used:

- (1) "Act" refers to Sections 8-19A-1 through 24, as well as the provisions in Section 8-19C-1 through 12 of the Code of Alabama 1975, as amended.
- (2) "Commission" means the Alabama Public Service Commission.
- (3) "Business Telephone Subscriber" means a person or company who has subscribed to a business telephone service from a local exchange carrier.
- (4) "Caller Identification Service" or "Caller ID" means a type of telephone service, which permits telephone subscribers to see the telephone number of incoming telephone calls.
- (5) "Coordinator" refers to the individual employed by the Commission to oversee the regulation of telephone solicitation practices, including the operations of the Do Not Call Register, as delegated by the Commission.
- (6) "Database" means the information from which the Commission compiles the Register. The database shall be maintained by the Commission, or its designee, for the purpose of fulfilling the requirements of the Act.
- (7) "Do Not Call Register" or "Register" means a list of telephone numbers of residential telephone subscribers who have notified the Commission of their objection to telephone solicitations and have properly enrolled their telephone numbers with the Commission.
- (8) "Interexchange carrier" means a company that is certificated by the Commission to provide long distance toll telephone service.
- (9) "Local exchange companies" as used in this Regulation, includes telecommunications service providers and competing telecommunications service providers

certificated by the Commission.

- (10) "Notice of Objection" refers to the completed enrollment form submitted by a residential telephone subscriber to the Commission to be included on the Do Not Call Register.
- (11) "Regulation" refers to Rule T-31 of the Alabama Public Service Commission Telephone Rules.
- (12) "Residential Telephone Subscriber" means a person residing in Alabama who has residential telephone service.
- (13) "Section" refers to the Consumer Services Section of the Alabama Public Service Commission.
- (14) "Telephone Solicitor" means any natural person, firm, organization, partnership, association or corporation, or a subsidiary or affiliate thereof, doing business in this state, who makes or causes to be made a telephonic sales call, including, but not limited to, calls made by use of automated dialing and announcing devices or by a live person.
- (15) "Telephone Solicitation" means a voice communication over a telephone line for the purpose of encouraging the purchase or rental of, or investment in property, goods, or services, but does not include communications by or on behalf of any of the exempt persons in Section 8-19A-4.

(B) General Telephone Solicitation Regulations

- (1) All telephone solicitations to residential telephone subscribers shall, within the first thirty (30) seconds of a telephone call, state clearly the identity of the person initiating the call and entity or organization such person represents, and the consumer goods or services being sold.
- (2) Telephone solicitors are prohibited from knowingly using telephone equipment or telecommunications network elements to block or otherwise interfere with the Caller ID function on the telephone of a residential telephone subscriber to whom a telephone solicitation is made so that the telephone number of the caller is not displayed

on the telephone equipment of the called party.

- (3) Telephone solicitors must adhere to state and federal statutes, rules and regulations regarding telephone solicitation practices, including, but not limited to, the Alabama Telemarketing Act.
- (4) After receipt of a complaint forwarded by the Commission, telephone solicitors shall, file a written response in accordance with the Commission's Rules of Practice.

(C) Maintaining the Alabama Do Not Call Register

- (1) The Commission, or other entity under contract with the Commission, shall maintain a database of names, addresses and telephone numbers of all Alabama residential telephone subscribers who have elected not to receive telephone solicitations.
- (2) The information contained in the database is not open to public inspection or disclosure as defined under Section 8-19C-4 of the Code of Alabama.
- (3) The Commission shall include in its Register the list of Alabama subscribers to the Federal Communications Commission's or any other federal agencies' Do Not Call national database, if and when such lists are established.
- (4) The Section will update the Register at the beginning of each month.

(D) Access to the Alabama Do Not Call Register by Telephone Solicitors

- (1) Telephone solicitors shall submit an application in writing to the Commission for access to the database. The application must contain the telephone solicitor's name, address, telephone number and name of the agent for service of process along with a notarized statement from an officer of the company affirming the company understands and agrees that information contained in the database shall be used exclusively for the purpose of compliance with this statute. The information contained in the database is not open to public inspection or disclosure as defined under Section 8-19C-4 of the Code

of Alabama.

(2) Telephone solicitors doing business in the state and subject to the control and jurisdiction of this Act shall pay to the Commission an annual fee for access to the Do Not Call Register. Such annual fee shall cover the time period from the following July 1<sup>st</sup> through June 30<sup>th</sup>, or any part thereof.

(a) Telephone solicitors may receive access to the database in paper or computer disc form quarterly upon receipt of a non-refundable annual fee of \$500.

(b) It is the duty of telephone solicitors to ensure they have the latest version of the Register prior to soliciting residential telephone subscribers. Telephone solicitors must update their respective list of residential subscribers at least once a quarter. A thirty (30) day grace period shall be given on all newly published registrations.

(E) Consumer Registration with the Alabama Do Not Call Register

The Commission shall establish and provide for the operation of a Register containing the telephone numbers of residential telephone subscribers who object to receiving telephone solicitations. Such Register may be operated by the Commission or by another entity under contract with the Commission. Guidelines for the operation of the Register are described as follows:

(1) A residential telephone subscriber may obtain information about enrollment on the Register by contacting the Commission at the toll-free number designated for this program or via the Commission's web site. Upon request, an application for enrollment will be mailed to the residential telephone subscriber to be completed and returned to the Commission. Upon receipt of the written application, the residential telephone subscriber's name and number will be entered on the Register. Registration will become effective sixty (60) days following the first day of the succeeding month of enrollment by the

subscriber.

- (2) A residential telephone subscriber will remain on the "Do Not Call Register" for a period of two (2) years or until the subscriber requests, in writing, that the Commission remove his or her name from the Register.
- (3) It will be necessary for a residential subscriber to file a new notice of objection with the Commission in the event the subscriber changes his or her telephone number.
- (4) Business telephone subscribers may not be included on the Register.
- (5) The Coordinator may audit and purge the Register periodically in order to ensure accuracy.

(F) Public Education about the Alabama Do Not Call Register

Local exchange companies shall notify their residential subscribers on an annual basis of how to enroll on the Register. This notification shall be disseminated at the option of the carrier by television, radio, or newspaper advertisements; written correspondence; bill inserts or messages; or any other method not expressly prohibited. Methods of notification shall be developed in cooperation with the Coordinator.

(G) Violations of the Alabama Do Not Call Register

- (1) It is a violation of the Act for a telephone solicitor to knowingly make or cause to be made any telephone solicitation to any telephone number that appeared in the copy of an updated Register that was in effect at least sixty (60) days prior to the time the telephone solicitation was made.
- (2) Violators of subsection (a) of Section 8-19C-2 or Section 8-19C-5 are subject to a civil penalty of any amount not to exceed two thousand dollars (\$2,000) for each violation. The Commission may seek additional relief in any court of competent jurisdiction.
- (3) It shall be a defense in any proceeding brought under

this Act that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of the Act.

(H) Enforcement Provisions

- (1) The Commission may, on its own motion, or the recommendation of the Section, or any other interested person, order the investigation of the practices of any telephone solicitor conducting business in Alabama. If such investigation discloses a violation of subsection (a) of Section 8-19C-2 or Section 8-19C-5, the Commission shall take appropriate action as provided for in the Act.
- (2) Local exchange companies and interexchange companies shall fully cooperate with the Commission in any investigation of an alleged violation of this Act.
- (3) If one or more of the term(s) or provision(s) of this Regulation or the application thereof, to any extent, are held to be invalid or unenforceable, then the remainder of this Regulation shall not be affected thereby.

## STATE OF ALABAMA

ALABAMA PUBLIC SERVICE COMMISSION  
P.O. BOX 991  
MONTGOMERY, ALABAMA 36101-0991

L. THOMAS, JR.

JIM SULLIVAN, PRESIDENT

JAN COOK, ASSOCIATE COMMISSIONER

CHARLES B. MARTIN, ASSOCIATE COMMISSIONER

WALTER

SECRETARY

BEFORE THE ALABAMA PUBLIC SERVICE COMMISSION  
SOUTH CENTRAL BELL TELEPHONE COMPANY

RE: 976/900 SERVICES

INFORMAL DOCKET: U-3113

### ORDER

In response to continuing complaints from consumers in this state concerning exorbitant prices charged in connection with the provision of pay-per-call services,<sup>1</sup> generally provided using "900" and "976" the Commission issued an order in this proceeding on December 4, 1990, which adopted various safeguards to protect

---

<sup>1</sup>In this opinion we refer to "900" and/or "976" services for convenience, although the opinion is directed at all pay-per-call services. We hereby adopt the definition of these services adopted by the Federal Communications Commission in CC Docket No. 91-65 as follows:

Pay-per-call services are communication services which permit simultaneous calling by a large number of callers to a single telephone number and for which the calling party is assessed, by virtue of completing the call, a charge that is not dependent on the existence of a presubscription relationship and for which the caller pays a per-call or per-time-interval charge that is greater than, or in addition to, the charge for transmission of the call.

subscribers from potential misuse and unanticipated bills associated with these services. This Order required local exchange companies operating in Alabama to block such services to each subscriber's access line until such time as such subscriber indicated his/her desire to have this service. The Commission also adopted uniform standards of offer and made these safeguards applicable to all Information Service Providers providing 900 and 976 services in Alabama.

Petitions for reconsideration for this order were filed on behalf of MCI Telecommunications Corporation, US Sprint Communications Co., AT&T Communications of the South Central States, Inc., GTE South, and South Central Bell. After reviewing the motions, the Commission entered an order on January 15, 1991, staying the December 4, 1990, Order (except Appendix "A", Applicable Standards of Offer) and indicating the Commission's interest in holding further hearings on these issues. In the interim, the Commission issued a policy for handling disputed 900 calls.

After this order was entered, members of the telecommunications industry joined together in an independent task force to address the problems associated with the provision of 900 and 976 services in Alabama. Hearings originally scheduled in March, 1991 were postponed. On August 8, 1991, a notice of prehearing conference and further hearing was issued by the Commission. The pre-hearing conference was held on September 18, 1991. The parties were provided at that time with a list of the issues which needed to be addressed at the hearing.

A public hearing was held on October 15, 1991. At the hearing, several members of the public expressed their views concerning the provision of 900 service. Witnesses testified about the confusion between "1-900" service and "1-800" service, where there are no

charges to the calling party. Other witnesses suggested that the advertising for 900 and 976 numbers should clearly state the charge for the service. Another witness asked the Commission to require information providers to inform callers of any "minimum charge" associated with a 976 or 900 call.

The Attorney General for the State of Alabama, the Honorable Jimmy Evans, also appeared at the hearing. Mr. Evans noted that the primary goal of the Attorney General's office was to enforce the laws of Alabama. The Attorney General also set forth his position with respect to the reverse blocking 900 lines, suggesting that the Commission retain the concept with regard to programming directed to children.

The Commission notes that pay-per-call service is information, entertainment, and fund-raising services provided to callers (hereinafter referred to as consumers) by Information providers (hereinafter referred to as IP's) generally using the 900 area code or the 976 local exchange, although other area codes, and other local exchange prefixes may be used in some cases. This service can also include billing and collection services by a local exchange company through its billing agent, (hereinafter the "LEC") either under direct contract with an IP or indirectly through an interexchange carrier (hereinafter IXC) for an IP. The 900 service provides customers access to such items as news, weather, financial, entertainment, consulting, and promotional information. The information may be in the form of voice or data, may be live or recorded, and may be interactive or passive.

The Commission continues to be vitally concerned about the exorbitant prices charged by some 900 information service providers as well as some questionable marketing techniques. The Commission is particularly concerned about programming directed at children, who oftentimes incur large bills for 900 calls without their

parents' knowledge. Information providers oftentimes lure children into making numerous 900 calls by promises of prizes or other unscrupulous schemes. "Call Santa Claus" and other similar programs appear to be nothing more than traps for small children who cannot and do not appreciate the fact that charges are incurred by the placement of these calls.

One option available to the Commission is reverse blocking or access by subscription only. Under the concept of access by subscription only, all telephones would be blocked as to 900 service unless the consumer notified the telephone company of his desire for 900 service capability. Although this concept appears to be the best way to protect the consumers in Alabama, the testimony presented to the Commission indicates that some telephone companies do not have the technology to do reverse blocking and the cost to those who do have that technology would be in excess of several million dollars. Although it is the opinion of this Commission that access by subscription only is the best safeguard for the consumers of this state, it appears that the option is not currently feasible due to the technology and costs. The Commission will continue to examine this area and will leave open the option of access by subscription only if circumstances warrant same.

The Commission notes that subsequent to the hearing before the Commission on October 15, 1991, a Report and Order was adopted by the Federal Communications Commission and released on October 23, 1991, in regard to policies and rules concerning interstate 900 telecommunication service. (See, CC Docket No. 91-65). Said Report and Order limits in certain areas the action that this Commission can take in regard to 900 telecommunication service.

The Commission after a thorough review of the record in these proceedings has determined that additional measures are required to more fully inform the consumers of Alabama regarding Pay-per-call

services. We have also concluded that additional safeguards are required to protect the consumers from the extensive abuses that have resulted from some very questionable practices engaged in by some unscrupulous information providers. Accordingly, the Commission will adopt the following rules and will require all LECs and/or IXC's to abide by these rules in the provision of 900\976 services in Alabama.

#### I. PREAMBLE

We believe that it would be beneficial to the citizens of this State if a preamble requirement for 900 service be adopted. We believe that an introductory message is a vital safeguard. A 900 call is a commercial transaction. Consumers have the right to know every time they consider transacting business with an IP that they have reached the IP they intended and what the cost will be. A disclosure message protects callers by providing basic information that promotes an informed decision as to whether or not to transact business with the IP. It protects consumers who may get the 900 number secondhand and protects illiterate or functionally illiterate users. The FCC Order in CC Docket No. 91-65 dealt with the issue of preambles in detail. The guidelines adopted by the FCC are hereby adopted by this Commission with respect to preambles.

It is, therefore, ORDERED BY THE COMMISSION that the LEC not handle billing and collections for IP services unless the IP has a preamble which satisfies the following requirements:

(1) Programs must begin with a clearly understandable and audible preamble that states the cost of the call. The preamble must disclose all per call charges. If the call is billed on a usage sensitive basis, the preamble must state all rates, by minute or other unit of time, any minimum charges and the total cost for

calls to that program if the duration of the program can be determined. No preamble is required for programs with a flat-rate charge of \$2.00 or less;

(2) The preamble must state the name of the information provider and accurately describe the information, product, or service that the caller will receive for the fee;

(3) The preamble must inform the caller that the billing will commence only after a specified identified event following the disclosure message, such as a signal tone, and must provide a reasonable opportunity for the caller to disconnect before that event;

(4) The preamble associated with pay-per-call offerings aimed at or likely to be of interest to children under the age of eighteen must contain a statement that the caller should hang up unless he or she has parental permission; and

(5) A caller may be provided the means to bypass the preamble on subsequent calls, provided that any bypass device shall be disabled for a period of thirty days following the effective date of a price increase for the pay-per-call service. Instructions on how to bypass must either be at the end of the preamble or the end of the program.

## II. BLOCKING

It is the opinion of this Commission that blocking is an essential part of any set of consumer safeguards. Blocking gives to consumers a measure of control over their exposure, and the exposure of children especially, to information services and the unexpected charges that can be incurred through the improper use of the services. We feel that it is in the public interest to require free blocking on a one-time basis for all subscribers. We are also of the opinion that blocking following a complaint investigation

and adjustment procedure and/or mandatory blocking described in section V. of this Order should be provided free of charge.

IT IS therefore, ORDERED BY THE COMMISSION that the LEC offer to all subscribers an option to block 976 and/or 900 services free of charge. Any reinstatement of 976 or 900 services after initial blocking must be done only on written request of the subscriber and it must be done free of charge. Blocking done as part of the complaint and adjustment procedure and mandatory blocking must also be provided free of charge.

IT IS FURTHER ORDERED BY THE COMMISSION that every telephone company billing Alabama consumers for 976 and/or 900 services use periodic bill inserts or bill messages to advise consumers that blocking of access to 976 and/or 900 services is available free of charge. The insert or bill message must also give the customer instructions for obtaining blocking. The bill insert or message shall further advise consumers that they shall not be charged for 976 or 900 subscription, but only for the calls made to 976 and/or 900 services. These bill inserts or bill messages shall be initially sent to all subscribers and shall be repeated not less than annually as a reminder to the Alabama consumer.

### III. PRICE LIMITS

Although the Commission notes that many information providers provide a good service at a reasonable price, the Commission is concerned with those information providers who provide a service at an exorbitant price. Too often, the uneducated consumer becomes the victim of such unfair commercial transactions. It is the opinion of this Commission that some type of price limit must be adopted to protect all consumers.<sup>2</sup>

---

<sup>2</sup>Special caps applicable to programs aimed at or likely to be of interest to minors are outlined in Section VI of this order.

IT IS, THEREFORE, ORDERED BY THE COMMISSION that the LEC will not provide billing and collection for an IP service where the charge for that service is more than the following: (1) three dollars for the first minute, and (2) two dollars per minute thereafter.

#### IV. COMPLAINT PROCEDURE/ADJUSTMENT POLICY

The Commission is of the opinion that the consumer needs to be clearly informed of the complaint procedure and adjustment policies applicable to these services. It is imperative that they be made aware of these policies and procedures each time they receive a bill that includes charges for these services. Accordingly, the complaint procedure and adjustment policy described herein will be summarized for the subscriber on the billing statement, which includes the 1-900 calls.

IT IS THEREFORE, ORDERED BY THE COMMISSION that the notification be included on the 900 billing sheet which shall include a toll free number for the LEC to which the consumer can direct his inquiries. The customer will not be required to deal with any entity other than the LEC. The LEC shall conduct, in conjunction with the IP, the IXC or any other intermediary, whatever investigation of the complaint is required and make a determination regarding adjustment of the charges. The subscriber notification will indicate that complaints must be registered within 60 days after receipt of the initial bill indicating these charges. Adjustments to the subscriber's account must be made within two billing cycles. At the conclusion of its investigation, the LEC shall notify the subscriber in writing of its determination regarding the charges and, if there is no adjustment, provide an explanation of the reason for its actions. The LEC is to furnish

to the Consumer Division of the Commission a copy of any complaint letters and the responses provided to the customers.

IT IS FURTHER ORDERED BY THE COMMISSION that the notification on the bill shall state that the subscriber is not required to pay any charges that are in dispute until that dispute has been resolved. The notification will also disclose that local service will not be disconnected for non-payment of 900 charges although mandatory blocking may be put in place if the refusal to pay is not justified.

Customers served by step, non-stored program or old digital offices not capable of blocking 976 or 900 service shall also receive the bill inserts or messages described herein, but this information will also inform these customers that 976 blocking and 900 blocking is not feasible for them at this time. These customers will also enjoy the bill adjustments described herein. In addition, the second-time forgiveness for their 976 or 900 bills shall be conditioned upon these customers subscribing to 976 and 900 blocking when it becomes available.

No service charges or late payment penalties will accrue on amounts that are in dispute. The LEC will not provide billing services if the IP makes any collection efforts, or reports disputed amounts to credit reporting agencies while these amounts are under investigation. The LEC will not provide billing services if the IP is unwilling to forgive the charges which have been adjusted by the LEC and seeks to collect them through independent collection efforts.

#### V. BILLING AGENT'S RESPONSIBILITIES

The LEC undertakes certain responsibilities to the general public when it enters into contracts to provide billing and collection for pay-per-call services. The Commission is of the

opinion that the LEC is in the best position to monitor these services and to provide certain safeguards which the Commission believes are necessary to protect the public.

If an IP does not wish to abide by the rules set forth herein, it is not required to use the local exchange carrier as its billing agent. Instead, it may provide these services using other means of billing and collection. With respect to any services provided by the LEC.

IT IS THEREFORE, ORDERED BY THE COMMISSION THAT the LEC provide to the Commission on a monthly basis a list of all IP services for which it is providing billing and collection services, and a brief description of the programs being offered by each IP. This information can be submitted to the Commission on a proprietary basis.

The LEC shall initiate a consumer awareness campaign to better inform consumers about these services and their costs. The LEC will also be responsible for monitoring all programs, advertising, conditions of offer, collection practices, credit reporting practices, and other terms of the offering to ensure that services billed through the local exchange company conform to these rules and regulations. As set forth hereinabove, the LEC is also responsible for dealing with all consumer complaints, and implementing the billing adjustment policy.

IT IS FURTHER ORDERED BY THE COMMISSION that this monitoring be accomplished by an affirmative program developed by the LEC rather than by dealing only in a reactive manner with complaints from the general public. A description of the monitoring practices to be instituted by the LEC will be filed with the Commission and an annual report shall be prepared by each LEC detailing the results of those monitoring efforts and the results of the implementation of the complaint procedure and adjustment policies.

IT IS FURTHER ORDERED BY THE COMMISSION that the LEC provide subscribers with a separate billing sheet for 1-900 calls. The complaint procedure and adjustment policy described in section IV must be included on that sheet. In addition to displaying the number called, the billing sheet should include a short description of the program (i.e. "Santa Claus," "Sports Line," etc.).

On request, the LEC will provide to the consumer the name, address and telephone number of the IP if the consumer wishes to initiate direct contact. As set forth in section IV, however, the LEC will undertake to investigate all complaints without requiring the customer to directly contact the IP. The LEC will also report directly to the Commission and to the Attorney General of the State of Alabama any trade practices which it has found that appear to be fraudulent and/or deceptive. The LEC will cooperate with the Attorney General in an investigation of alleged consumer fraud or other violations of state law.

IT IS FURTHER ORDERED BY THE COMMISSION that the LEC adjust the subscriber's bill to delete charges for unauthorized or mistaken use without investigation the first time the subscriber requests an adjustment. At that time the subscriber will be advised that blocking is available free of charge. The second time a complaint is made for unauthorized or mistaken use an adjustment shall be allowed without investigation if the subscriber agrees to accept blocking. If the subscriber does not want blocking, but still disputes the charges, an investigation will be conducted and, if warranted, a second credit will be given. If the subscriber refuses to accept blocking and refuses to pay the charges after an investigation indicates that payment is warranted, the LEC is authorized to block that line from access to these services.

IT IS FURTHER ORDERED BY THE COMMISSION that the LEC investigate complaints that services are fraudulent. If the LEC

determines that any service is fraudulent, it will no longer serve as billing agent for that service, and the subscriber's bill will be adjusted for that charge.

IT IS FURTHER ORDERED BY THE COMMISSION that no telephone company will collect for these services by means other than normal telephone bill collection procedures. A LEC may provide to an IP information necessary to bill the customer directly for these services except in those cases where an adjustment has been made pursuant to these rules.

IT IS FURTHER ORDERED BY THE COMMISSION that no telephone company will collect for these services by means other than normal telephone bill collection procedures. A LEC may provide to an IP information necessary to bill the customer directly for these services except in those cases where an adjustment has been made pursuant to these rules.

The Commission recognizes that there will be certain costs associated with the requirements that are being placed on the LEC. Because this service is unrelated to basic telephone service, we do not believe that any of the costs should be borne by the general ratepayer. It is therefore, the Commission's decision that the LEC shall make arrangements to collect sufficient revenues from the IP's and or the IXC's to cover all of the costs associated with the consumer protection requirements set forth herein.

Failure on the part of a LEC to comply with any regulation or policy herein may result in enforcement measures being taken by the Alabama Public Service Commission, including, without limitation, the initiation of a show cause proceeding against the non-complying entity.

## VI. ADVERTISING<sup>3</sup>

The Commission believes that the consumer is entitled to be fully informed regarding the service which is being purchased.

IT IS THEREFORE, ORDERED BY THE COMMISSION THAT the LEC cannot provide billing and collection to any IP service which fails to conform to the following advertising guidelines. Advertising must be submitted to the LEC for its review to ensure conformity with these guidelines. All advertising must accurately describe the service or program being offered and any maximum charge per minute or per call including any minimum dollar requirements and any minimum period required to receive the information or service.<sup>4</sup> The advertising must also include the IP's name and address or telephone number.

IT IS FURTHER ORDERED BY THE COMMISSION that all visual advertisements clearly and conspicuously display costs immediately above, below or next to the 900 number in type size that can be seen as clearly and conspicuously at a glance as the 900 number whenever that number is being displayed. For all audio advertising, the IP must state the costs as many times as the telephone number is communicated orally during the course of the ad. All verbal communication of costs must be understandable and audible.

IT IS FURTHER ORDERED BY THE COMMISSION THAT cross-promotions, continuation calls or giveaways directed at adults, include all of the advertising requirements stated herein in the advertisement for the original call, and at the end of each call which refers the consumer to another number.

IT IS FURTHER ORDERED BY THE COMMISSION THAT advertising for credit cards and/or loans clearly disclose any material conditions attached to the offer such as collateral requirements, processing fees, limits on usage and others.

Additional advertising guidelines applicable to solicitations for contributions are set forth in section VIII of this order; additional advertising guidelines applicable to programs for minors are set forth in section VII of this order.

#### VII. PROGRAMMING FOR MINORS

The Commission is aware that there is a general concern with programs aimed at or likely to be of interest to minors.<sup>5</sup> Minors are able to charge substantial expenses to their parent's telephone bill, without necessarily obtaining parental consent. The Commission will require the LEC to decline from providing services for IP programs that are in conflict with the following guidelines.

IT IS THEREFORE ORDERED BY THE COMMISSION that the LEC not provide billing and collection for programs aimed at or likely to be of interest to minors which cost more than \$4.00 per call. The IP cannot utilize auto-dialers to allow a minor to access a service by using a series of tones generated by the television. The IP cannot ask the minor to make a recorded statement that includes personal identification information (name, address).

IT IS FURTHER ORDERED BY THE COMMISSION that the LEC not provide services for IP programs which involve cross-promotions or continuation calls aimed at or likely to be of interest to minors. These calls require the minor to call back, or call additional numbers in order to obtain further information, the end of a story, or some other aspect of the service. Similarly, services will not be provided to IP's which offer certain giveaway items to minors in order to promote usage or which require a minor to purchase an item before the complete service or program message can be received.

It is FURTHER ORDERED BY THE COMMISSION that special advertising guidelines, in addition to those stated in section VII hereinabove, apply to television advertising for programs directed

at minors. These advertisements must include a verbal direction to seek parental permission before placing a call and a verbal statement that the charges will appear on the parent's telephone bill.

#### VIII. CONTRIBUTIONS

IP's are providing services that solicit contributions from customers or undertake other fund-raising activities for certain political, religious and/or other charitable entities. These contributions are being billed, in some cases through the LEC. The customer is entitled to know the extent to which the funds being pledged are actually being used for these purposes.

IT IS THEREFORE ORDERED BY THE COMMISSION that the advertising should clearly and conspicuously display the name, address and telephone number of the entity for which funds are being solicited. The LEC is directed to verify this information before providing billing and collection services by reviewing a copy of the contract between the political, religious or charitable entity and the IP. The LEC is also required to verify the IP's charitable or non-profit status by reviewing the IRS Form 501(c)(3) filing for that organization.

#### IX. MISCELLANEOUS

The Commission is aware that the technology now exists for the IP to originate calls to a customer and for charges to be billed to the customer's local bill for these calls without the customer's knowledge or consent. These automated collect telephone calls have been addressed in the recent order of the Federal Communications Commission in CC Docket No. 91-65.

IT IS HEREBY ORDERED BY THE COMMISSION that the LEC will not provide billing services for any entity which fails to conform to the requirements of the FCC's Order with respect to automated

collect telephone calls (64.715).

The Commission is also aware that the technology now exists for the transmission of audible tones during television advertising which will automatically call an IP. This technology has been addressed in the recent order of the FCC, as set forth hereinabove.

IT IS HEREBY ORDERED BY THE COMMISSION that the LEC will not provide billing services for any entity which fails to conform to the requirements of the FCC's Order with respect to Generation of Signaling Tones (64.716).

The Commission recognizes that there are certain problems associated with line seizure which have also been addressed in the recent order of the FCC.

IT IS HEREBY ORDERED BY THE COMMISSION that the LEC will not provide billing service for any entity which fails to conform to the requirements of the FCC's Order with respect to line seizure (68.318).

The Commission is also aware that there have been certain practices associated with job information lines that have been deceptive and very costly to consumers.

IT IS THEREFORE ORDERED BY THE COMMISSION, that the LEC not provide services to IP job information line services unless: a specific employer is identified (including name and address), the geographic location of the job is identified (by State), and the jobs identified are current (verified as available during the last 30 days).

The Commission is aware that the Federal Communications Commission has issued certain orders pertaining to aspects of 900 service and pertaining to billing and collection services for interstate calls. The Commission notes that the Federal Communications Commission has the authority to preempt States' regulation of certain aspects of interstate communication.

Considering these factors it is hereby,

ORDERED BY THE COMMISSION that this Order applies to all 900 and 976 services between locations within the State of Alabama and to the extent not previously preempted to billing and collection for interstate 900 and 976 services.

IT IS FURTHER ORDERED that jurisdiction in this cause is retained for any order or orders this Commission may find just and reasonable in the premises.

Dated at Montgomery, Alabama this day of December, 1991.

RE: 900/976 Service Offerings

Informal Docket U-3113

### Implementation Order

#### BY THE COMMISSION:

On December 9, 1991, the Commission issued an Order in this proceeding adopting regulations to more fully inform Alabama consumers about 900/976 pay-per-call services and to protect consumers from abuses that resulted from questionable practices engaged in by certain unscrupulous information providers ("IP"). In the Order, the Commission adopted specific standards for pay-per-call services in Alabama which are billed and collected by Alabama local exchange companies ("LEC"). These standards addressed: (1) the content of the service preamble or introductory message; (2) the charge for the services; (3) appropriate collection activity; (4) advertising guidelines; (5) guidelines for programming aimed at minors; (6) guidelines for services that solicit contributions or undertake fund-raising activities; and (7) guidelines for automated collect calls, generation of signaling tones, line seizure and job information lines. In the December 9 order, the Commission delegated to the LECs the responsibility of insuring that the 900/976 services for which they bill and collect

are in compliance with the regulations contained in the Order.

In addition, the Commission adopted regulations applicable to the LECs requiring: (1) free blocking for 900/976 services and an informational campaign to inform consumers about blocking; (2) changes to the billing format for 900/976 calls; (3) a complaint procedure and adjustment policy, administered by the LECs, and printed on the billing statement along with other notifications; and (4) monthly and annual reports to the Commission regarding the 900/976 services for which the LECs bill.

The December 9, 1991, Order did not specify the procedures to be followed by LECs or IXC's to ensure that pay-per-call and IP practices are in compliance with the restrictions. In order to facilitate implementation of the December 9, 1991 order, the Commission hereby supplements its December 9, 1991, order by adopting the following procedures to be followed by carriers participating in the provision of, or billing for, pay-per-call services. <sup>6</sup>

## I.

### 1. Compliance Procedures

The December 9, 1991, Order prohibits LECs from handling billing and collection for IP services unless the IP's programming, as well as its advertising and collection practices, meet certain requirements. These requirements concern message preambles, independent collection activity, advertising, children's programming, nonprofit solicitations, automated calling and job line offerings.

The Commission recognizes that existing pay-per-call services are governed exclusively by contractual arrangements between the IXC's and the IP's. Consequently, the LECs have limited means to

obtain information on a timely basis regarding the identity of the IP or the nature of the IP offering.

While most of the restrictions contained in the Order can be implemented only by the IXC's, the Commission continues to be of the opinion that LECS should be accountable for compliance. To accomplish this goal, the LECs shall be allowed to accept certifications from the IXC's that pay-per-call traffic carried by the IXC's is in compliance with the terms and restrictions contained in the Order. The form for such certifications shall be developed by the Commission staff in cooperation with the IXC's and LECs. Should an IXC refuse to provide such certifications, or should the LECS or the Commission become aware of noncompliance, billing and collection of such pay-per-call traffic shall be suspended. LECs shall be directly responsible for ensuring compliance for any pay-per-call service billed through a direct contract between the LEC and the IP.

## 2. Price Caps

In its Order, the Commission prohibited LECs from providing billing and collection for an IP service when the charge for that service is more than three dollars for the first minute and two dollars per minute thereafter. Additionally, on page 12 of the Order, the Commission prohibited LECs from providing billing and collection for "programs aimed at or likely to be of interest to minors which cost more than four dollars per call." The LECs (and, in some instances, their third party billing agents) render bills based on billing information provided by IXC's for all interexchange traffic, including 900 charges. The IXC's, in turn, have a billing agreement with the IP's. The record in this case reflects that in most instances the IXC's, and/or IP's, not the LECs, "rate" or price

900 calls. Accordingly, the IXC's shall be required to provide billing information to LEC's for pay-per-call traffic consistent with the billing restrictions contained in the December 9, 1991, Order and the LEC's shall be required to obtain a certification from the IXC's to this effect. The Commission staff will review the effectiveness of this policy after twelve months to determine if further enforcement measures are needed. Nothing in this section shall in any way restrict the right of a subscriber to the billing forgiveness and credits described in the December 9, 1991, Order.

### 3. LEC Monitoring of Collection Efforts by IPs

On page 7 of its Order, the Commission prohibited LEC's from providing billing and collection services to IPs which engage in certain independent collection efforts and credit reporting practices. The Commission recognizes the practical limitations on a LEC's ability to monitor independent actions of IXC's or IPs to collect amounts for disputed pay-per-call charges. The Commission will require, however, LEC's to receive certifications from IXC that the IXC is adhering to this policy prior to the provision billing and collection services. Should a LEC become aware of such prohibited collection efforts by an IXC or IP, it shall notify both the IXC and the Commission, and both the LEC and IXC shall be required to terminate any billing and collection activity on behalf of such IP.

### 4. LEC Reporting Of IP Activity to Commission

The Commission has a need to be informed of the services being provided by IPs in Alabama. The Commission finds that the reporting requirements contained in the December 9, 1991 Order can be best

implemented if the IXCs provide the Commission, on a proprietary basis, with a list of Alabama IPs subscribed to their pay-per-call services. The Commission shall prohibit LECs from billing pay-per-call services for IXCs which fail to provide such information.

## 5. Separate Billing Page

The Commission ordered the LECs to provide subscribers with separate billing sheets for all pay-per-call traffic. This type of bill format may not be possible in the short term for some companies due to the significant cost of necessary software modifications. Additionally, many small LECs use third parties to perform billing services subject to nationwide billing contracts. Notwithstanding these problems, it remains the Commission's goal to require the implementation of a separate billing sheet for pay-per-call services as soon as possible. All LECs shall be required to provide the Commission with information concerning the anticipated cost and any programming difficulties associated with implementation of such a billing format. The Commission shall work with individual companies in establishing a deadline for implementing this provision and shall grant exemptions, where justified. As part of this process, the Commission will coordinate the implementation of this provision with any billing page requirement established by federal legislation. The Commission will also require companies that are not able to immediately provide a separate billing page to otherwise distinguish pay-per-call charges from the rest of the bill.

## 6. Complaint Resolution

Both the IXCs and the LECs have requested the LECs be allowed

to direct subscribers to the carrier in the best position to resolve his or her complaint in the most efficient fashion. As an example, AT&T performs its own account inquiry function for its 900 traffic. The Commission finds that the LECs should be allowed to direct subscribers to the party which can resolve his or her complaint in the most efficient fashion. In this regard, all bills must also include a toll free number for billing inquiries. These provisions do not, however, absolve the LECs from providing the billing adjustments contained in the Order, regardless of the outcome of the complaint process. The LECs will also remain absolutely prohibited from taking any action against subscribers during the pendency of any complaint regarding pay-per-call services.

## 7. Recovery of Costs

The procedures described above should remove much of the costs to LECs associated with compliance of this Order. LECs incurring significant costs associated with compliance with the Order are required to file appropriate amendments to billing and collection tariffs or other proposed tariff sections to recover such costs. Such filings shall be reviewed by the Commission on a case by case basis.

II.

ORDERING PARAGRAPHS

IT IS, THEREFORE, ORDERED BY THE COMMISSION, That all LECs and IXC's providing service in Alabama are required to comply with the aforementioned procedures to implement the December 9, 1991, order in this docket and that said Order is hereby amended as described herein. Unless expressly modified by this order, the December 9, 1991, order shall remain in full effect.

IT IS FURTHER ORDERED, That this Order shall be effective as of the date hereof.

DONE at Montgomery, Alabama, this 8th day of September, 1992.
